Building Drexel Richardson Dilworth, Scott Gabriel

Knowles, 2016-12-12 Published in conjunction with Drexel University's 125th anniversary *Building Drexel* chronicles the founding of the university by Anthony J. Drexel through to the present day. The editors and contributors create a prismatic discussion of the university and its evolution. Richly illustrated chapters cover the architectural history of notable Drexel buildings, the role of Drexel in Philadelphia's modern history, its Greek life, sports, particularly Drexel's history in the Big 5, and each of the university's schools and colleges. There is a history of the medical college and law school, plus the creation of new schools such as those of biomedical engineering, science, and health systems. *Building Drexel* also documents the civil rights history of Drexel and its urban planning history in relation to the racially diverse Powelton Village and Mantua neighborhoods it borders. This commemorative volume shows the development of the university both in the city and in the world. Contributors include Lloyd Ackert, Cordelia Frances Biddle, Paula Marantz Cohen, Donna Marie De Carolis, Roger Dennis, Gloria Donnelly, Kevin D. Egan, Alissa Falcone, David Fenske, John A. Fry, Stephen F. Gambescia, Marla J. Gold, Charles Haas, Kathy Harvatt, Daniel Johnson, Jeannine Keefer, Larry Keiser, Michael Kelley, Jason Ludwig, Jonson Miller, Julie Mostov, Danuta A. Nitecki, Anthony M. Noce, Steven J. Peitzman, David Raizman, Tiago Saraiva, Amy E. Slaton, Nathaniel Stanton, Virginia Theerman, Laura Valenti, James Wolfinger, Eric A. Zillmer, and the editors.

Чипова війна Кріс Міллер, 2024-08-15 *The*

World After the War Derek Leebaert, 2018-11-01 One of the great myths of the twentieth century is that after the Second World War Britain simply relinquished its power and America quickly embraced its worldwide political and military commitments. Instead, the two allies improvised an uneasy shifting partnership for twelve long years while most of western Europe lay in turmoil and Russia grew more aggressive. But in 1957 Washington issued a declaration of independence from British authority. It was then that everything changed and America assumed leadership of the new world order, just taking shape. Derek Leebaert spins a riveting global narrative of Britain as the original superpower and shows why the Americans kept believing it to be indispensable. It's the story of secret ties, diplomatic quarrels, and military interventions that casts political giants Churchill, Truman, Eisenhower, and Johnson in a new light. In a volatile world of decolonisation, a uniting Europe and the Suez Crisis, shrewd men in London were leveraging the empire's long established resources and influence to maintain their grip on power. The enduring notion of a special relationship, rising tensions with Russia and China, and the sources of much of the world's turmoil can't be understood without knowing what really occurred.
