Public Opinion ,1866 THE MATERIAL STRUCTURE Tan Kheng Yeang, 2014-02 The conflict between the material side of human existence and that of our spiritual and philosophical beliefs is as old as humanity itself but one side of the equation is as important as the other and no society can hope to sustain its existence without an equitable balance between the two In this thoughtful and thought provoking volume the author offers a unique perspective on the system of concrete tangible products produced by humankind that form the physical foundation of society He calls this system the material structure However this book is not intended as a scientific study of the production distribution and consumption of goods that is the realm of economics rather it provides an overview of the totality of products created by humans for human consumption and assesses their role as a constituent of civilization The subject of this study could also be designated as productology The development and growth of the material structure have occurred in an inconsistent haphazard fashion Advancements in science medicine and technology have contributed to the creation of a chaotic mass of unrelated products Even the advent of

mechanization has failed to yield any further insights into the conglomeration of products that form an integral part of today's world. This volume proposes to give unity to the material structure by classifying its components into divisions determining the principles and rules that govern or should govern it and relating it to the other constituents of civilization including philosophy and religion which throughout history have often been inimical to the material side of human existence. The author presents a cogent and persuasive argument that in order to survive civilization needs one component as much as the other. The key is to achieve an equitable balance between these two dichotomies something which to date no society has been capable of accomplishing. This book provides a fascinating and fresh approach to an age-old enigma that has plagued humankind since the dawn of our existence.

Communication and Power in the Global Era Marwan M. Kraidy, 2012-11-27 This book revisits how we think about communication and power in the global era. It takes stock of the last fifty years of scholarship, maps key patterns and concepts, and sets an agenda for theory and research. The book addresses such questions as: How are national and cultural identities re-fashioned and expressed in the global era? How can we best understand the emergence of multiple and sometimes antagonistic modernities worldwide? How are political struggles fought and communicated on the local-national-global nexus? How do we integrate emerging media environments in global communication studies? Bringing together essays from a range of internationally renowned scholars, this book will be useful to undergraduate and postgraduate students on Media and Communication Studies courses, particularly those studying globalisation and global media. Contributors: Hector Amaya, Paula Chakravartty, Andrew Crocco, Myria Georgiou, Le Han, Anik Imre, Koichi Iwabuchi, Marwan M. Kraidy, Sara Mourad, Patrick D. Murphy, Tarik Sabry, Paddy Scannell, Piotr M. Szipuniar, Guobin Yang, Barbie Zelizer.

Literature, 1899 **Literature** Henry Duff Traill, John Kendrick Bangs, 1899 **The Political Identity of the West** Marcel van Ackeren, Orrin Finn Summerell, 2007 To assert that a clash of civilizations follows inexorably from the different religious convictions at the foundations of Western Judeo-Christian and Arabic Islamic cultures means to deny that a common political rationality can articulate genuinely universal albeit culturally situated values. The eleven contributions to the present volume take up this controversy by challenging its premise that the heritage of classical Greek thought is exclusively part of Western political identity. By exploring the tradition of Platonism informing both Arabic Islamic and Western political thought and intellectual history in key stations in their history, the contributors show how Platonic political theory can still bear fruit in the present day, especially in the context of dialogue between cultures.
