Introduction to Nursing Research Boswell, Sharon Cannon, 2017 The Fourth Edition of *Introduction to Nursing Research* is a distinct integration of evidence based practice and research for the baccalaureate student and practicing registered nurses. It focuses on how students can incorporate research into their daily practice while considering all the newest trends and issues. This is not a typical introduction to nursing research book; it is an evidence based practice text that uses research. The Fourth Edition focuses on the meaning of evidence, the use of quality improvement, and the practical application of these aspects for the practicing health care provider.

Saving Lives Sandy Summers, Harry Summers, 2015 This fully updated and expanded edition of *Saving Lives* highlights the essential roles nurses play in contemporary health care and how this role is marginalized by contemporary culture. Perhaps most important, the authors provide a wealth of ideas to help reinvigorate the nursing field and correct this imbalance.
