Singh, Consumer Debt and Social Exclusion in Europe Hans-W. Micklitz,Irina Domurath,2016-03-09 This book analyses
the dichotomy between the goal of social inclusion and the effect of social exclusion through over indebtedness since 2008 in
Europe Filling a vital gap in the current literature on the effects of the financial and economic crisis this volume puts into
context academic discussion with the real life dimension of over indebtedness Reports from six European countries provide
socio economic and legal information on over indebtedness as well as the regulatory and judicial responses to the problems
entailed by over indebtedness They form the empirical background for five analyses of different aspects of the inclusion
exclusion dichotomy It becomes clear that in the context of credit expansion individual over indebtedness has turned into a
social issue which the current design of the consumer credit and mortgage system in Europe has helped to produce while
disregarding the consequential danger of social exclusion , **FCC Record** United States. Federal Communications
