Her presentation is clear, accurate, and her inferences show that she has a first-rate grasp of the implications of the theory and what it means for the care of patients. Her work should stand as a monument to the application of psychological theory to nursing care. Professor Emeritus Kenneth R. Hammond, University of Colorado, USA. Sound clinical judgement and decision making is vital to the delivery of high-quality patient-centred nursing and interprofessional healthcare. This book integrates the theory and practice of decision making to guide and enhance practitioners' understanding and clinical expertise. Mooi Standing presents relevant contemporary theory and research that relates decision making to Professional identity, Organization of healthcare, Developing knowledge and skills, Selecting and applying the most appropriate intervention in clinical practice. Real case studies written by various advanced practitioners demonstrate how to apply theory to practice in reviewing, explaining, and continually developing clinical judgement and decision making skills. A patient's account of care received for a serious illness provides a valuable patient-centred insight. The author's new reflexive pragmatism model summarizes the key knowledge, skills, values, and processes of clinical judgement and decision making for readers to apply in reviewing and enhancing their own clinical practice. Extensive reflective activities and self-assessment tools are included throughout the book. *Clinical Judgement and Decision Making* is essential reading for qualified nurses, midwives, and allied health professionals undertaking CPD modules in judgement and decision making, evidence-based practice, and reflective practice or studying to be advanced practitioners.
