Anatomy and Physiology : The Digestive System and Nutrition Rumi Michael Leigh, The Digestive System and Nutrition Things You Should Know Questions and Answers explains how the human body processes food and absorbs nutrients in a question and answer format The book introduces the main organs of the digestive system including the mouth esophagus stomach small intestine and large intestine along with accessory organs such as the liver gall bladder and pancreas It describes mechanical and chemical digestion peristalsis segmentation and the role of

enzymes and hormones in breaking down food Key topics include absorption of nutrients bile production liver function pancreatic enzymes and the importance of villi and microvilli Nutrition is explored through macronutrients like carbohydrates proteins and lipids as well as micronutrients such as vitamins and minerals The text also covers conditions like gastritis jaundice cirrhosis pancreatitis and gallstones while examining processes such as glycogenesis glycogenolysis and metabolism This book will interest students health science learners and those studying anatomy and physiology who want to understand the digestive system and the role of nutrition in maintaining health **The Big Slide** Nicholas F.

Prayson, Richard A. Prayson, 2015 The human digestive system plays an important role in processing food in order to provide nutrients that the body can use This well illustrated text presents the basics of anatomy physiology and disease of the human digestive system by answering a series of questions relevant to the various components of this system For example in studying the stomach the following questions are examined 1 Where is the stomach located 2 What does the stomach look like 3 What does the stomach do 4 Where do gastric juices come from 5 What causes ulcers 6 What causes a stomach ache and 7 What causes burping Additionally most chapters are filled with unusual trivia related to the part of the body being discussed For example there was a 42 year old woman who complained of mild abdominal pain and had 2533 objects removed from her stomach including 947 pins The text provides a fun and interesting way to learn more about the digestive system The text is ideal whether you are looking for an entertaining and informative read on the workings of the human digestive tract or looking for a text or resource for biology or health classes *Digestive System & Metabolism* Dr. Tommy Mitchell, 2018-08-15 The fourth volume of the Wonders of the Human Body series dives deep into why our bodies need energy and how we get it As with all our explorations into the complexity of the human body when you see the incredible design of the digestive system you ultimately have to ask yourself Can this all possibly be an accident Something that happened by chance The answer is a resounding No We are not the product of evolution We are not animals We are a special creation In *Digestive System Metabolism* you will learn about The digestive system including the teeth and tongue the mouth and esophagus the stomach and intestines the liver the gallbladder and the pancreas Our metabolism a complex system created by God to transform food into fuel for our energy God our Designer thought of everything even the problems that would occur in a sin cursed world We are indeed wonderfully made Prepare to be amazed
