An Unspeakable Secret:

An Unspeakable Secret Glenda Hunter, 2014-12-03 Hidden secrets usually don't hide forever as I found out in my own life. I woke to the reality that I was hiding abuse in my background. Abuse for me started at an early age. It was so traumatic that I developed multiple personality disorder (MPD) or today DID just to be able to cope. The great struggle began. The greatest feeling that overwhelmed me was one of hopelessness. But with the help of God and the encouragement of my loving husband, good therapists, and caring friends, I began my journey to wholeness. Can wholeness be found? Yes, it can.

Family Secrets and the Psychoanalysis of Narrative Esther Rashkin, 2014-07-14 Family Secrets and the Psychoanalysis of Narrative is the first book to explore the implications of the psychoanalytic theory of the phantom for the study of narrative literature. A phantom is formed when a shameful unspeakable secret is unwittingly transmitted through cryptic language and behavior transgenerationally from one family member to another. The haunted individual to whom the encrypted secret is communicated becomes the unwitting medium for someone else's voice, and the result is speech and conduct that appear incongruous or obsessive in a variety of ways. Through close readings of texts by Conrad, Villiers de l'Isle Adam, Balzac, James, and Poe, Esther Rashkin reveals how shameful secrets concealed within the unspoken family histories of fictive characters can be reconstructed from their linguistic traces and can be shown not only to drive the characters' speech and behavior but also to generate their narratives. First articulated by the French psychoanalysts Nicolas Abraham and Maria Torok, the theory of the phantom here represents a radical departure from Freudian, Lacanian, and other psychoanalytic approaches to literary interpretation. In Rashkin's hands, it also provides a response to structuralist and poststructuralist critiques of character analysis, an alternative to deconstructive strategies of reading, and a new vantage point from which to consider problems of intertextuality, authorship, and the formation and origins of narrative. Originally published in 1992, The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. Nietzsche's Epic of the Soul T. K. Seung, 2005-06-14 Thus Spoke Zarathustra is Nietzsche's most problematic text There appears to be no thematic connection between its four Parts and numerous sections To make it even worse the book contains a number of thematic contradictions The standard approach has been a method of selective reading that is most critics select a few brilliant passages for edification and ignore the rest This approach has turned Nietzsche's text into a collection of disjointed fragments Going against this prevalent approach T K Seung presents the first unified reading of the whole book He reads it as the record of Zarathustra's epic journey to find spiritual values in the secular world The alleged thematic contradictions of the text are shown to indicate the turns and twists that are dictated by the hero's epic battle against his formidable opponent His heroic struggle is eventually resolved by the power of a pantheistic nature religion Thus Nietzsche's ostensibly atheistic work turns out to be a highly religious text The author uncovers this epic plot by reading Nietzsche's text as a baffling series of riddles and puzzles Hence his reading is not only edifying but also breathtaking In this unprecedented enterprise the author takes a complex interdisciplinary approach engaging the five disciplines of philosophy psychology religious studies literary analysis and cultural history

Dismemberment in the Fiction of Toni Morrison Jaleel Akhtar, 2014-06-19 Dismemberment in the Fiction of Toni Morrison is a multifaceted study of Toni Morrison's fiction It investigates racism and the concomitant experiences of dismemberment in Morrison's fiction from multiple perspectives including history psychology and culture Looking at dismemberment from multiple perspectives rather than the more generic and abstract expression of fragmentation likens the impact of racism on individuals to the splitting of bodies amputation phantom limbs and traumatic memories and in more concrete and visceral terms Morrison's art of story telling involves an interactive conversation from multiple perspectives demanding more attentive participation from her readers in deconstructing the meaning of her narratives Studying her fiction from multiple perspectives suggests various ways of examining the pernicious impact of racism which produces various forms of dismemberment in her characters This investigation does this without giving prominence to one perspective at the expense of other equally relevant modes of interpretation Morrison's depiction of the trauma of racism on the psyche of her characters and the concomitant experiences

of dismemberment has its roots in the historical and social realities of African Americans. The psychological impact of racism on Morrison's characters requires viewing through the lens of the historical and social realities that play a significant role. Morrison enacts racial alienation and dismemberment as complex processes; it is consequently important to look at her project from multiple perspectives. Examining the lived reality of African Americans from only one perspective ignores dismemberment in the light of the socio-political and historical realities of African American experience in the United States and entails reconsideration of the physical, historical, social, and psychological realities. This investigation argues for the importance of combining these historical and psychological as well as sociocultural analyses of Morrison's fiction in order to acquire a more rounded understanding of racism and its debilitating effects on the psyche. By situating Morrison's fiction within a variety of discourses, this study offers a multifaceted, highly interdisciplinary framework for a more rewarding analysis of her fiction.

Whisperer 4 Jerry Collins, 2025-01-30. Indiana. The name itself conjures images of rolling farmland, bustling cities, and friendly faces. But beneath the surface of this seemingly idyllic landscape lies a tapestry of unsettling mysteries, spectral encounters, and chilling tales passed down through generations. This collection, the fourth installment in the Short Ghost Stories with Hoosier Haunts series, delves into that hidden realm, offering a selection of concise, impactful ghost stories rooted in the rich folklore and history of the Hoosier State. Each story is crafted with an emphasis on evocative language and suspenseful pacing, aiming to transport you to the heart of these eerie locations, to experience the chill of a spectral encounter firsthand, and to taste the fear that comes from witnessing the unseen. Expect encounters with phantom figures lurking in abandoned buildings, eerie occurrences on desolate roads, and chilling encounters in the state's most celebrated parks. The stories within are carefully researched, drawing inspiration from real locations and local legends, adding a layer of authenticity and intrigue. While some stories might be inspired by true events, the events themselves have been fictionalized to create a more impactful and compelling narrative. The goal is not only to entertain but also to provide a window into the unique character of Indiana, its deep-seated mythology, and the dark corners where the past still lingers. The brevity of each story is intentional, allowing for a quick but powerful punch of supernatural suspense, perfect for a late-night read or sharing around a campfire. Whether you are a seasoned enthusiast or new to the world of ghost stories, prepare to experience a taste of Indiana's darker side. Prepare to be haunted.

Theoretical Fables Alicia Borinsky, 2015-09-11. Alicia Borinsky argues that the contemporary Latin American novel does not just ingeniously dismantle the referential claims of the more traditional novel; it offers a postmodern version of the

lessons taught by fiction Latin American fiction perhaps the most inventive literature of recent decades seems marked by its self reflexivity by its playful relationship to history and the everyday and by its concerns with the ways in which language works But is it Borinsky asks really a literature whose primary goal is to raise metafictional questions about writing and reading While the effects of this literature include dismantling the illusions of realism naturalism and historicism the haunting and disturbing energy of its major works lies in their capacity of invoke a region beyond literature through literature Theoretical Fables progresses by way of close readings of the works of eight canonical and not quite canonical Latin American Authors Borinsky argues that the Latin American theoretical fable has its origins in the work of the early twentieth century Argentinean writer Macedonio Fern ndez In this light she studies the works of Jorge Luis Borges Gabriel Garcia M rquez Julio Cort zar Jos Donoso Adolfo Bioy Cesares Manuel Puig and Maria Luisa Bombal Experiencing Gender Rocío Carrasco-Carrasco,2015-10-13 This book provides comprehensive insights into the concept of gender in an international context By focusing on diverse and varied critical approaches it explores how gender identities are shaped by socio cultural factors and provides a map of how gender experiences are understood and represented in the arts and society Through an analysis of both focal and local experiences of gender within a global context the contributions to this volume create a continuum in which gender and experience stand at a crossroads within the arts Moreover this crossroads intersects with the cultural determinations that some of the contributors explore in a critical way Consequently this volume represents a necessary contribution to the new maps of gender that are currently being set for the future The book will appeal to academic scholars interested in the articulation of gender in traditional discourses as well as the many deconstructions that have been undertaking in the recent past and the present In addition the volume is suitable for use in programmes and modules for undergraduate students of feminist and gender studies cultural studies sociology literature and popular culture among other disciplines *Murder Most Queer* Jordan Schildcrout,2014-10-09 The villainous homosexual has long stalked America s cultural imagination most explicitly in the figure of the queer murderer a character in dozens of plays But as society s understanding of homosexuality has changed so has the significance of these controversial characters especially when employed by LGBT theater artists themselves to explore darker fears and desires *Murder Most Queer* examines the shifting meanings of murderous LGBT characters in American theater over a century showing how these representations wrestle with and ultimately subvert notions of gay villainy *Murder Most Queer* works to expose the forces that create the homophobic paradigm that imagines sexual and gender nonconformity as dangerous and destructive and to show how theater artists and for the most part LGBT theater artists have rewritten and radically altered the significance of the homicidal homosexual Jordan Schildcrout argues that these figures far from being simple reiterations of a homophobic archetype are complex and challenging characters who enact trenchant fantasies of empowerment replacing the shame and stigma of the abject with the defiance and freedom of the outlaw giving voice to rage and resistance These bold characters

Disarming Words Shaden M. Tageldin, 2011-06-12 In a book that radically challenges conventional understandings of the dynamics of cultural imperialism Shaden M Tageldin unravels the complex relationship between translation and seduction in the colonial context She examines the afterlives of two occupations of Egypt by the French in 1798 and by the British in 1882 in a rich comparative analysis of acts fictions and theories that translated the European into the Egyptian the Arab or the Muslim Tageldin finds that the encounter with European Orientalism often invited colonized Egyptians to imagine themselves equal to or even masters of their colonizers and thus paradoxically to translate themselves toward virtually into the European Moving beyond the domination resistance binary that continues to govern understandings of colonial history Tageldin redefines cultural imperialism as a politics of translational seduction a politics that lures the colonized to seek power through empire rather than against it thereby repressing its inherent inequalities She considers among others the interplays of Napoleon and Hasan al Attar Rifa a al Tahtawi Silvestre de Sacy and Joseph Agoub Cromer Ali Mubarak Muhammad al Siba i and Thomas Carlyle Ibrahim Abd al Qadir al Mazini Muhammad Husayn Haykal and Ahmad Hasan al Zayyat and Salama Musa G Elliot Smith Naguib Mahfouz and Lawrence Durrell In conversation with new work on translation comparative literature imperialism and nationalism Tageldin engages postcolonial and poststructuralist theorists from Frantz Fanon Edward Said and Gayatri Spivak to Jean Baudrillard Walter Benjamin Emile Benveniste and Jacques Derrida

Collision of Realities Lars Schmeink, Astrid Böger, 2012-05-29 Even though the fantastic in its most inclusive definition has been a part of our culture for as long as it exists it has not been a prominent feature of European academic interest With its inherent transgressive moment the fantastic allows for an ideal space of the cultural negotiation of political social and physical boundaries which should place it at the center of popular cultural research not as is the case at its periphery But the commencing boom of fantastic themes in contemporary media production has facilitated a paradigmatic change in research prompting a wide interest in the fantastic in all its forms from fantasy to horror from fairy tale to science fiction This volume addresses this growing interest by reviewing the status of research on the fantastic in Europe so far and by providing a necessary outlook for the future In the essays current trends such as the liminality debate as well as established discourses as for example on genre theory are brought together to show interested researchers a network of interdisciplinary from literary media and social studies approaches towards the fantastic

Keats, Narrative and Audience Andrew Bennett, 1994-03-24 Andrew Bennett s original study of Keats focuses on questions of narrative and audience as a means to offer new readings of the major poems It discusses ways in which reading is figured in Keats s poetry and suggests that such figures of reading have themselves determined certain modes of response to Keats s texts Together with important

new readings of Keats's poetry the study presents a significant rethinking of the relationship between Romantic poetry and its audience Developing recent discussions in literary theory concerning narrative readers and reading the nature of the audience for poetry and the Romantic invention of posterity Bennett elaborates a sophisticated and historically specific reconceptualization of Romantic writing **The Christian's secret of a happy life.** By H.W.S.
