Lab Report Assistant

This document is not meant to be a substitute for a formal laboratory report. The Lab Report Assistant is simply a summary of the experiment's questions, diagrams if needed, and data tables that should be addressed in a formal lab report. The intent is to facilitate students' writing of lab reports by providing this information in an editable file which can be sent to an instructor.

Electrochemistry Mohammed Khalid,2013-02-20 Electrochemistry has been undergoing significant transformations in the last few decades It is now the province of academics interested only in measuring thermodynamic properties of solutions and of industrialists using electrolysis or manufacturing batteries with a huge gap between them It has become clear that these apparently distinct subjects alongside others have a common ground and that they have grown towards each other particularly as a result of research into the rates of electrochemical processes Such evolution is due to a number of factors and offers the possibility of carrying out reproducible dynamic experiments under an ever increasing variety of conditions with reliable and sensitive instrumentation This has enabled many studies of a fundamental and applied nature to be carried out **Geological Survey Water-supply Paper** ,1985 *The Office of Environmental Management Technical Reports* ,1997
