years ago the world had no paved highways no speeding cars airplanes cell phones washing machines computers or satellite dishes to name only a few things that today we take for granted But the greatest change that has occurred has been our perception of reality which began with the discovery that matter is actually composed only of vibrations of energy and that energy is the reality behind everything around us Today we perceive everything in terms of energy we have become an energy conscious as well as an energy dependent society In this collection of fascinating essays on a variety of topics Swami Kriyananda a renowned and prolific writer presents an approach to modern life that may seem radically new The book s title essay Religion in the New Age shares the ancient teaching common to many cultures that time is cyclical and that we are now in an upward cycle coming into an age of energy awareness from a darker age of matter The author shows society political and social events and religion and religious institutions from the viewpoint of different cycles of time **New Age Journal** ,1997 Library Journal ,1998-05 *Happy in Adversity* Guillermo Cordero,2018-11-16 Misfortune such as death failure loneliness disappointment abandonment limitations illness and several more affect without distinction and sometimes without mercy all human beings regardless of origin nationality social status colour sexual orientation gender beliefs and family composition Some are affected with more or less intensity and frequency but inevitably all mortals have to face tragedy sooner or later In all cases we have the option of being well or miserable and the decision is ours to make Fate is never against us it just happens and adapting to it is easier than we have been told You will find here simple but invaluable concepts that will help you regain control of your thoughts and actions to lead a happy and meaningful life regardless of what happens around you Dreams, Past Lives, Holy Spirits, Your Soul ! sought to awaken it in others Though he could be intensely serious and deep as appropriate he also could express the greatest joy often in unexpected situations The humor in The Man that Refused Heaven arose spontaneously from Yogananda s deep joy Sometimes he used humor to express an important spiritual principle Sometimes he used it in training the disciples to help them learn in a way that reasoned lectures could never achieve Most of the humor in this book was taken from Yogananda s writings Also included are experiences with the master that demonstrate his playful spirit These were written by Swami Kriyananda from his years of being trained personally by Yogananda or from stories that were shared with him by other close disciples The message of this book is both playful and serious The serious message is that joy can be found within us always We should look for it there and share it with others
