Explaining Human Origins Wiktor Stoczkowski,2002-06-20 Wiktor Stoczkowski a palaeo anthropologist argues that the theories of human origins developed by archaeologists and physical anthropologists from the early nineteenth century to the present day are structurally similar to Western folk theories and to the speculations of earlier philosophers Reviewing a remarkable range of thinkers writing in a variety of European languages he makes a convincing argument for this case Even though the book criticises the lack of development in theories of human origins its conclusion is optimistic about the power of the scientific approach to deliver more reliable theories but only if the influences of popular discourse on its thinking are properly identified **Interrogating Human Origins** Martin Porr,Jacqueline Matthews,2019-12-06 Interrogating Human Origins encourages new critical engagements with the study of human origins broadening the range of approaches to bring in postcolonial theories and begin to explore the decolonisation of this complex topic The collection of chapters presented in this volume creates spaces for expansion of critical and unexpected conversations about human origins research Authors from a variety of disciplines and research backgrounds many of whom have strayed beyond their usual disciplinary boundaries to offer their unique perspectives all circle around the big questions of what it means to be and become human Embracing and encouraging diversity is a recognition of the deep complexities of human existence in the past and the present and it is vital to critical scholarship on this topic This book constitutes a starting point for increased interrogation of

the important and wide ranging field of research into human origins It will be of interest to scholars across multiple disciplines and particularly to those seeking to understand our ancient past through a more diverse lens **Search Your Middle Eastern and European Genealogy** Anne Hart,2004 Includes information on doing genealogical research in Croatia Bulgaria Hungary Eastern Europe Poland and Greece and research techniques such as interpreting family histories and ancestry DNA test results collecting personal histories and interviewing older adults recovering and preserving documents and other forms of information **Human Origins 101** Holly M.
