Zetka,1995-01-01 This book is an account of the political economy of labor relations in the U S automobile industry from the end of World War II to the 1970s Zetka develops a sophisticated paradigm of hegemonic and competitive market conditions that challenges dominant theories of postwar industrial relations linking rates of workplace militancy to product market fluctuations variations in work organization and differences in authority systems legitimated on the shop floor He then uses this model to interpret in historical detail the complex market and workplace relationships that unfolded in the industry Zetka traces the postwar struggles between management and militant auto workers over the definition of a fair day s work He argues that management s selective use of a quota based authority system for occupational groups that had been the most militant during the 1940s and 1950s was primarily responsible for the decline of wildcat strike activity in the auto industry and that this system was made possible by the emergence in the 1960s of a distinctive market structure that regulated competition between the surviving auto firms *General Motors N-cars Automotive Repair Manual* Richard Lindwall,John Harold Haynes,1995 GM N Cars 1985 95 Shop Manual Haynes 376 pgs 902 ill **Indianapolis Monthly** ,1996-05 Indianapolis Monthly is the Circle City s essential chronicle and guide an indispensable authority on what s new and what s news Through coverage of politics crime dining style business sports and arts and entertainment each issue offers compelling narrative
