The Political Primer Mark E. Glogowski Ph. D.,2011-12 The kind of society you want to live in depends upon what you politically believe Each political party has embraced a Worldview of how society should be structured and how people should interact Each party is striving to create a world structured by their Worldview The goal of politics is to place individuals in positions of control over society who will create or preserve that structure That is the same goal as war to place people in charge of society who will create a structure for society that will result in the establishment of the kind of society the victors want to live in For some people how they live is worth fighting for For many how they live is worth dying for Politics is war You are the foot soldier So what do you believe The Political Primer will help you to determine what it is you politically believe and which Worldview you already embrace You will soon realize politics is not about what other people think or what other people believe Politics is about what you think and what you believe Here are three of the facts that politicians and elected officials do not want you to know 1 Politics is not complicated 2 Only four basic political philosophies exist 3 Politics is entirely about you Fundamental political concepts introduced in Part One are used to develop four political philosophies There are only four Part Two uses both trivial and controversial issues to illustrate the application of the political concepts of Part One Part Three will illustrate the power of the political concepts presented and will further clarify how politics is utilized to change the structure of society The Epilog is both a commentary and a test The test is not to determine whether you agree or disagree with the Author s commentary The test is to determine for yourself whether you now understand why you agree or disagree The Political Primer will have accomplished its goal if you know why You will have become politically astute There are four possible future worlds Which one do you want to build

Managing for World Class Safety James Melville Stewart, 2012-11-28 Despite the extensive literature on safety few tools have been available to help managers quantitatively assess the level of safety management and the quality of the safety practices in organizations In his consulting practice Dr Jim Stewart a former executive at DuPont developed such a method crafting a safety survey centering on a comprehensive questionnaire for employees at all levels that reveals the true level of corporate commitment to safety Managing for World Class Safety first describes the model of safety management that underpins the questionnaire and then

demonstrates how this innovative procedure illuminates critical intangibles like management commitment the enforcement of rules worker involvement and injury investigation The central part of this book is the description of research at the University of Toronto that applies the questionnaire in comprehensive research at five of the world s safest companies and five with very poor safety The questionnaire polled 700 people in the ten companies measuring the level of more than twenty key elements such as The workers perception of the priority given to safety The belief that all injuries can be prevented The extent to which line management takes responsibility accountability for safety How well safety rules are followed and enforced The frequency and quality of safety meetings The level of recognition to reinforce safety excellence In every element the contrast between the responses from the very safe companies and those from the companies with poor safety was dramatic clearly depicting where the former succeed and the latter fail By developing quantitative benchmark data Stewart reasons that it will be easier to convince reluctant management to undertake the fundamental change necessary for a step change in their company performance Managing for World Class Safety promises a revolutionary new approach to workplace safety improvement for corporate leaders safety professionals and regulators
