Statement Rockefeller Foundation,1954 Resources in Education ,1999-04 The Religious Critic in American Culture William D. Dean,1994-01-01 This book provides a new rationale for religious criticism in American society First Dean shows why today s academic intellectuals are relatively indifferent to questions of meaning in America pointing to the loss of American exceptionalism the professionalization of the academy and the rise of post structural criticism He then shows how intellectuals may reclaim a prophetic role by offering a new theory of the nature of religious thought Tracing this theory to a twentieth century emphasis on conventions Dean provides a way to understand how imaginative social constructions can become active historical conventions with real historical force He suggests that the sacred itself begins as an imaginative construct and becomes a convention thus working as an active living force in history Finally Dean argues that religious critics must now reclaim a responsibility for shaping their society s sacred conventions **Language Power: Grades 3-5 Level B**

Institutional Analysis and Economic Policy Marc R. Tool,Paul Dale Bush,2012-12-06 The purpose of this volume is to demonstrate how contemporary institutional economic analysis can be applied to the resolution of economic problems All of the essays in this book challenge the conventional wisdom in the problem areas addressed They advocate policy positions that often run contrary to views widely held by academic economists and policy makers alike The general literature of institutional economics is unorthodox beginning with its methodological foundations and continuing through the kind of policy analysis found in these pages The orthodox tradition in economics is commonly characterized as neoclassical economics Neoclassical economics fosters the myth that only the market can efficiently allocate a society s economic resources and equitably distribute its income It provides the intellectual defense for in which free markets are championed over democratic capitalist ideology policy formation which it contends is neither efficient nor equitable For both professional economists and policy makers of a conservative political persuasion neoclassical economics writes the script for a morality play in which the market is the good guy and the government is the bad guy As such it undermines the belief that free societies can enhance economic welfare through the use of democratic processes in the formulation of economic policies

Dissed Trust William DeMersseman,2010-09-30 Distrust of government is a natural response to a controlling and out of control bureaucracy The motivation for protest and reform is not animosity towards government and its legitimate functions but a love of America and a passionate desire to pass on to the next generation the innumerable blessings of liberty Citizens are frightened by the governments relentless growth unsustainable debt trajectory culture of corruption and encroachment of individual rights Critics of the tea party movement attempt to derail it with meritless claims of racism extremism bigotry conspiracy class warfare and malice The claims are ridiculous Tea party participants include members of every party social class ethnicity age and gender they hold varying views on a number of issues but share a deep appreciation for the limited constitutional government established by Americas founders They see Washingtons profligate spending imperious unaccountability and reprobate political environment as symptoms of a federal government that recognizes no limitations on its power They feel a civic responsibility to speak out and to work toward a return to constitutional governance and sound fiscal policy This is not a book about the tea party movement It is a book about the political economic and cultural upheavals fueling the movement the insanely escalating national debt the increasingly coercive and contemptuous political establishment the arrogant failure of true political leadership and the pervasive assault on the society sustaining virtues of truth trust integrity morality freedom and civility
