Protest Song in East and West Germany Since the 1960s David Robb, 2007 The German protest song from the 1960s through the 1990s and how it carried forth traditions of earlier periods The modern German political song is a hybrid of high and low culture With its roots in the birth of mass culture in the 1920s it employs communicative strategies of popular song Yet its tendencies toward philosophical poetic and musical sophistication reveal intellectual aspirations This volume looks at the influence of revolutionary artistic traditions in the lyrics and music of the Liedermacher of east and west Germany the rediscovery of the revolutionary songs of 1848 by the 1960s West German folk revival the use of the profane carnivalesque street ballad tradition by Wolf Biermann and the GDR duo Wenzel Mensching the influence of 1920s artistic experimentation on Liedermacher such as Konstantin Wecker and the legacy of Hanns Eisler's revolutionary song theory The book also provides an insider perspective on the countercultural scenes of the two Germanys examining the conditions in which political songs were written and performed In view of the decline of the political song form since the fall of communism the book ends with a look at German avant garde techno's attempt to create a music that challenges conventional cultural perceptions and attitudes Contributors David Robb Eckard Holler Annette Blödhorn Peter Thompson David Robb is Senior Lecturer in German Studies at the Queen's University of Belfast *Transnational Protest, Australia and the 1960s* Jon Piccini, 2016-05-09 Australia is rarely considered to have been a part of the great political changes that swept the world in the 1960s the struggles of the American civil rights movement student revolts in Europe guerrilla struggles across the Third World and demands for women's and gay liberation This book tells the story of how Australian activists from a diversity of movements read about borrowed from physically encountered and critiqued overseas manifestations of these rebellions as well as locating the impact of radical visitors to the nation It situates Australian protest and reform movements within a properly global and particularly Asian context where Australian protestors sought answers utopias and allies Dramatically broadens our understanding of Australian protest movements this book presents them not only as manifestations of local issues and causes but as fundamentally tied to ideas developments and personalities overseas particularly to socialist states and struggles in near neighbours like Vietnam Malaysia and China Jon Piccini is Research and Teaching Fellow at The University of Queensland Brisbane Australia His research interests include the history of human rights and social histories of international student migration **The Politics of the Encounter** Andy Merrifield, 2013-04-15 The Politics of the Encounter is a spirited interrogation of the city as a site of both theoretical inquiry and global social struggle The city writes Andy Merrifield remains important virtually and materially for progressive politics And yet he notes more than forty years have passed since Henri Lefebvre advanced the powerful ideas that still undergird much of our thinking about urbanization and urban society Merrifield rethinks the city in light of the vast changes to our planet since 1970 when Lefebvre's seminal Urban Revolution was first published At the same time he expands on Lefebvre's notion of the right to the city which was

first conceived in the wake of the 1968 student uprising in Paris We need to think less of cities as entities with borders and clear demarcations between what s inside and what s outside and emphasize instead the effects of planetary urbanization a concept of Lefebvre s that Merrifield makes relevant for the ways we now experience the urban The city from Tahrir Square to Occupy Wall Street seems to be the critical zone in which a new social protest is unfolding yet dissenters aspirations are transcending the scale of the city physically and philosophically Consequently we must shift our perspective from the right to the city to the politics of the encounter says Merrifield We must ask how revolutionary crowds form where they draw their energies from what kind of spaces they occur in and what kind of new spaces they produce

Boutenko,1997-07-22 The newest volume in the Comparative Charting of Social Change Series which documents patterns of social change in modernized societies Recent Social Trends in Russia is a collection of statistical and sociological data on trends in Russian society that have never before been assembled in a comprehensive and systematic manner It presents an extensive analysis of the major social transformations that took place in Russia both before and after the fall of the Communist system and dispels many illusions about Russian society in the twentieth century Recent Social Trends in Russia reveals remarkable similarities between emerging trends in Russia and in Western countries during the last thirty five years Russian society shows a strong tendency toward modernization although the speed of change is sometimes slower than in Western industrialized countries Similar to Western societies Russia s population is aging unemployment prevails among the young and a new class of young professionals is emerging The institution of marriage is losing its significance emotional disorders and consumption of mood altering substances are increasing and religious beliefs and habits are becoming more diversified Political upheavals over the last ten or twelve years and the collapse of Communism have not had much effect on the social landscape in Russia There has however been an increase in the influence of Western culture and a violent backlash in fields that underwent forceful modernization The findings suggest that Russian and Western societies are more similar than one would imagine and contradict the popular
