HVAC Solutions: Solving the Problems They Don't Teach You Charles Nehme, In the world of HVAC theory can only get you so far I ve spent over three decades traveling the globe consulting on some of the most intricate and demanding mechanical electrical and plumbing MEP projects imaginable From the icy pressures of industrial facilities to the precise needs of large scale commercial developments I ve seen firsthand how real world challenges often defy textbook solutions The problems I ve encountered the intermittent electrical faults that no one can find the subtle airflow issues that cause major comfort complaints the client communication breakdowns that sour a project are the very things that standard training often overlooks This book is a direct response to that gap It s not a dry technical manual filled with formulas and diagrams you ve already seen Instead it s a distillation of the practical wisdom unconventional diagnostic methods and hard won lessons I ve gathered throughout my career I ve written it for every professional who has ever stood in front of a system that

just wouldn't cooperate wondering what they were missing My goal is to empower you with the insights you need to move beyond simple troubleshooting and become a master problem solver
