English,2011-01-11 This fully updated Second Edition offers an unflinching and comprehensive overview of the full range of both practical and theoretical issues facing educational leadership today Editor Fenwick W English and 30 renowned authors boldly address the most fundamental and contested issues in the field including culturally relevant and distributed leadership critical policy and practice issues predicting the new century s conflict the paradox of changes and the promises paradoxes and pitfalls of standards for educational leaders Proceedings of the 2023 2nd International Conference on Social Sciences and Humanities and Arts (SSHA 2023) Mohd Fauzi bin Sedon,Intakhab Alam Khan,Mehmet CÜNEYT BİRKÖK,KinSun Chan,2023-06-29 This is an open access book With the progress of social civilization social science and its research are becoming more and more important Theoretically and practically the study of social phenomena and social problems and the development of prosperous social sciences are the eternal themes of human beings At present social science research and its results can hardly meet the needs of social development especially the unscientific evaluation of social science results which has aroused great concern from all walks of life and has produced dirt and questions on social science thus affecting the proper development of social science Max Weber once said that the most important function of social science in modern times is to keep people clear headed and to resist the delusions of prophetic legislators Humanities and arts are the process of perceiving realizing thinking manipulating and expressing objective or subjective objects through capturing and excavating feeling and analyzing integrating and applying or displaying the stage results in the form obtained through feeling seeing hearing smelling touching The social sciences and humanities and arts contain content that will directly affect our lives and the way society functions And by reacting to today s increasingly intricate problems and situations through systematic and professional discussions they will further contribute to the improvement of institutions and the development of society By thinking about issues and looking at problems and the world from different perspectives by putting the two together it may be possible to have more comprehensive appropriate and better responses for example the development of laws requires a deeper understanding of the environment in which they are implemented international trade requires a certain understanding of the customs of different countries and the development of tax and economic policies requires a certain understanding of the population consumer demand etc **Video-interventions** Naďa Vondrová,2021-01-01 The book deals with developing the concept of professional vision noticing and knowledge based reasoning among future primary and secondary school teachers of Biology Mathematics English as a foreign language Art and Social Studies Researching the use of video interventions during teacher training programmes the authors show that short term interventions do not significantly improve professional vision which is in contrast to student teachers perception of the practice The book also uses case studies to uncover individual differences in student teachers learning taking into account their various backgrounds and approaches This is a valuable resource for teacher educators who are considering the incorporation of video intervention courses into study programmes and for researchers interested in the development of professional vision

Lost at School Ross W. Greene, 2008-10-21 From a distinguished clinician pioneer in working with behaviorally challenging kids and author of the acclaimed *The Explosive Child* comes a groundbreaking approach for understanding and helping these kids and transforming school discipline Frequent visits to the principal's office Detentions Suspensions Expulsions These are the established tools of school discipline for kids who don't abide by school rules have a hard time getting along with other kids don't seem to respect authority don't seem interested in learning and are disrupting the learning of their classmates But there's a big problem with these strategies They are ineffective for most of the students to whom they are applied It's time for a change in course Here Dr Ross W Greene presents an enlightened clear cut and practical alternative Relying on research from the neurosciences Dr Greene offers a new conceptual framework for understanding the difficulties of kids with behavioral challenges and explains why traditional discipline isn't effective at addressing these difficulties Emphasizing the revolutionarily simple and positive notion that kids do well if they can he persuasively argues that kids with behavioral challenges are not attention seeking manipulative limit testing coercive or unmotivated but that they lack the skills to behave adaptively And when adults recognize the true factors underlying difficult behavior and teach kids the skills in increments they can handle the results are astounding The kids overcome their obstacles the frustration of teachers parents and classmates diminishes and the well being and learning of all students are enhanced In *Lost at School* Dr Greene describes how his road tested evidence based approach called Collaborative Problem Solving can help challenging kids at school His lively compelling narrative includes tools to identify the triggers and lagging skills underlying challenging behavior explicit guidance on how to radically improve interactions with challenging kids along with many examples showing how it's done dialogues Q A's and the story which runs through the book of one child and his teachers parents and school practical guidance for successful planning and collaboration among teachers parents administrations and kids Backed by years of experience and research and written with a powerful sense of hope and achievable change *Lost at School* gives teachers and parents the realistic strategies and information to impact the classroom experience of every challenging kid
