

Pedro's Pool Party

Geometry Performance Task

Pedro's family is planning a pool party for Pedro's graduation, and they need to rearrange their backyard to set up for the party. Below is the current layout of their yard and a space to create a new layout. Follow the directions below to help Pedro's family determine the best layout for the party.

Current Layout:

New Layout:

- Pedro wants to move the lounge chairs so that they are the same distance from the pool but on the other side of it. He wants to place the lounge chairs so that if you sit on them, you are facing the pool. Draw the lounge chairs on the new layout, and describe the transformations that would map them from their old location to their new location.
- Pedro's dad bought a Super-Speed waterslide to set up on the lawn. The waterslide unfolds to be twice its current length and width. Draw the unfolded slide on the new layout. What transformations map the original area covered by the slide to the new area? And the original area and the new area similar? Explain how you know.
- Pedro wants to move the lounge chair to the pool, draw the lounge on the new layout so that they are closer to the pool. What transformations (s) would map each lounge from its old location to its new location? Are the two lounges congruent? Explain how you know.
- Pedro's mom wants to move the grill farther from the waterslide. Use two different transformations (one translation) to move the grill. Draw the grill on the new layout, and describe the two transformations that map the grill from its old location to its new location.

Van de Walle, 1998 John A Van de Walle has written a book that helps readers make sense of mathematics and become confident in their ability to teach mathematics to children K to 8 Elementary and Middle School Mathematics consists of 16 chapters reflecting the view that all mathematics can be taught through a problem solving approach that motivates children and builds their confidence as they learn This book thoroughly discusses the new standards and clearly develops four key aspects of teaching mathematics the nature of mathematics as a science of pattern and order an understanding of how children learn mathematics a problem solving view of teaching mathematics and specific methods for integrating assessment with instruction Simple yet effective classroom activities are woven throughout the chapters as

well as suggestions for technology and literature

Performance Assessment Brian McLean Semple, 1992 The second International Assessment of Educational Progress focused on the mathematics and science achievement of 13 year olds Performance assessments were used as part of the overall assessment in four countries England Scotland Soviet Union and Taiwan and five Canadian provinces The performance assessment approach drew heavily on the experience of the United Kingdom in such assessments but added features to meet the needs of an international study The performance tasks required students to apply concepts observe measure manipulate equipment and materials and record and interpret data Approximately 3 000 students participated in the 1991 mathematics and science assessments Scores varied widely from task to task and from country to country Relative performance of countries and provinces generally differed from those identified by written curriculum based tests A major lesson learned from the experimental test administration is that this form of performance assessment can be used reliably in international comparative studies although at an estimated cost three to four times greater than that for an equivalent number of written test questions Sample mathematics and science tasks are included and there is an appendix on problem solving in mathematics that describes outcomes produced by Scottish students

SLD **Multiple-task Performance and Aging** J. E. Korteling, 1994 *Resources in Education*, 1997 **Golden State Examination**, 1992 **Assessment Standards for School Mathematics** National Council of Teachers of Mathematics, 1995 This document was created because of the need for new assessment strategies and practices to be developed to enable teachers and others to assess students performance in a manner that reflects the NCTM's reform vision for school mathematics Instead of assuming that the purpose of assessment is to rank students on a particular trait the new approach assumes that high public expectations can be set that every student can strive for and achieve that different performances can and will meet agreed on expectations and that teachers can be fair and consistent judges of diverse student performances The first sections of the document discuss six mathematics assessment standards 1 The Mathematics Standard 2 The Learning Standard 3 The Equity Standard 4 The Openness Standard 5 The Inferences Standard and 6 The Coherence Standard The use of the assessment standards is then discussed in the context of different purposes such as monitoring students progress making instructional decisions evaluating students achievement and evaluating programs The next section discusses what should happen next with regard to mathematical assessment The document concludes with a glossary and a selected assessment bibliography with 116 citations Contains 28 references MKR *An Introduction to the Minimum Performance Objectives for Mathematics Education in Michigan*, 1973 *A Parent's Guide to High Stakes Testing* Edith Wagner, 2002 Provides parents with a comprehensive outline of today's educational standards Explains the new standards and the language of education Considers the education a child is getting and explains how each state measures academic achievement Outlines the goals and content of new standardized tests provides sample English and math questions with answer explanations and offers guidance for the English and math assessment tests from elementary through high

school Presents a list of state websites for more information on specific tests and dates and explains how the No Child Left Behind bill affects you **Curriculum Development Library** ,1980 *Florida Preparing for FCAT Mathematics* Kay Williams,2000 **Elementary School Mathematics** John A. Van de Walle,1994 Elementary School Mathematics Teaching Developmentally Second Edition provides detailed comprehensive coverage of the teaching of mathematics in grades K 8 Firmly grounded in the NCTM Standards the text develops a constructivist developmental approach to learning mathematics that focuses on the nature of mathematical concepts and the manner in which children construct mathematical ideas It aims to help teachers reconceptualize mathematics as a problem solving endeavor not as a mastery of rules and procedures An accessible synthesis of viewpoints and current research this highly praised text includes topics ranging from the development of basic fact mastery to the important development of number sense All the while encouraging teachers to consider the construction of mathematics from the child s perspective In depth treatment of curriculum content teaching combined with hundreds of teaching activities aimed at conceptual development makes Elementary School Mathematics a practical teacher s resource as well as a college text Elementary School Mathematics Teaching Developmentally Second Edition features greater emphasis on the NCTM Curriculum Standards and the Professional Teaching Standards as the leading forces in mathematics education a new chapter on mathematics as a science of pattern and order a completely rewritten chapter on alternative assessment expanded and improved problem solving examples enhanced coverage of grades 7 and 8 even more black line masters with directions for making other useful materials and an Instructor s Manual with instructional suggestions activities for group homework practicum ideas and essay questions
