9 and 11 Kim H. Veltman,2015-02-23 This is an unlikely story of true events The Day that changed the World in the United States bombing of the Twin Towers the Day of Fate in Germany and the Day of Destiny in Israel are all connected with the 11th day of the 9th month These 9 11 dates entail much more than three events in three countries In the Hebrew tradition they include all the calamities that have befallen the Jews from the time of the Destruction of the First Temple and Second Temple the Expulsion of the Jews from England France Spain through to the Holocaust in World War II These events are in turn part of a larger history which linked the same date with cosmic events such as a day of Cosmic Battle and the Birth of Venus and gave special significance to the numbers 9 and 11 Part one explores this tradition and surveys a range of sources from a former German officer involved in the plot against Hitler to various conspiracy theories These events are also related to swastikas and hexagrams Since World War II there has been a trend to associate swastikas with an evil German Aryan tradition and hexagrams e g six pointed Star of David with a good Jewish Semitic tradition Historically a Jewish connection with the Star of David is late Mediaeval rather than Biblical Swastikas and hexagrams are found in both the Aryan and the Semitic tradition Hence the new trend distorts a complex history More disturbingly in the guise of tolerance and political correctness one version of stories is highlighted others are being suppressed and truth is endangered

United States of America Congressional Record, Proceedings and Debates of the 113th Congress Second Session Volume 160 - Part 1 , Age of Impact James Marins, 2021-09-20 In a time of correction terrorism corruption unemployment hunger cancer depression in which we are constantly bombarded by catastrophic news generating the negative instinct referred to by Hans Rosling the question that surrounds us is who cares Based on a narrative that is both light and impressively profound James Marins sets out to fight apathy and ignorance and make us feel the potential of the era in which we live After all our capacity for opinion action participation and collaboration at scale for systemic changes has never been greater To understand our possibilities we cannot limit ourselves to the narrow view of our personal horizon We need a more comprehensive complex and systemic analysis To do so Marins starts from three fundamental dimensions of the

complex richness of our contemporary human condition the Transforming Movement of Freedom the Transforming Movement of Economy and the Transforming Movement of Consciousness All these movements are interconnected in order to constitute the Massive Transformative Movement the backdrop in which the author weaves the entire work The tools for action and for the updating of ourselves are available to all who care in what is humanity's best time our best opportunity

The Age of Impact Schooling New Media Tyler Bickford, 2017 Popular music and digital media are constantly entwined in elementary and middle school children's talk interactions and relationships and offer powerful cultural resources to children in their everyday struggles over institutionalized language literacy and expression in school In *Schooling New Media* author Tyler Bickford considers how digital music technologies are incorporated into children's expressive culture their friendships and their negotiations with adults about the place of language music and media in school *Schooling New Media* is a groundbreaking study of children's music and media consumption practices examining how transformations in music technologies influence the way children their peers and adults relate to one another Based on long term ethnographic research with a community of schoolchildren in Vermont Bickford focuses on portable digital music devices i.e. MP3 players to reveal their key role in mediating intimate face to face relationships and structuring children's interactions both with music and with each other *Schooling New Media* provides an important ethnographic and theoretical intervention into ethnomusicology childhood studies and music education emphasizing the importance and yet under appreciation of interpersonal interactions and institutions like schools as sites of musical activity Bickford explores how headphones facilitate these school centered interactions as groups of children share their earbuds with friends and listen to music together while participating in the dense overlap of talk touch and gesture of their peer groups He argues that children treat MP3 players more like toys than technology and that these devices expand the repertoires of childhood communicative practices such as passing notes and whispering all means of interacting with friends beyond the reach of adults These connections afforded by digital music listening enable children to directly challenge the language and literacy goals of classroom teachers Bickford's *Schooling New Media* is unique in its intensive ethnographic attention to everyday sites of musical consumption and performance and offers a sophisticated conceptual approach for understanding the problems and possibilities of children's uses of new media in schools
