Today we can see the transformation in the automotive industry including ridesharing and carsharing with the new concepts of mobility and motion changing every day. Will consumers lose the emotion they previously had for their vehicles? Maybe the new emotion will be a different type of connection, one that understands, learns, and reasons as you move through your life. This is the concept of a cognitive vehicle and lifestyle that is discussed within. This book provides the trends and technologies in the automotive industry as it moves from a connected vehicle to a cognitive vehicle and how automotive manufacturers are facing the market shift from an organizational-centered to an individual-centered economy. *Signal*, 2015
