Contemporary Rhetoric: a Reader's Coursebook ,1972

The Medieval Chronicle II ,2021-11-22 After the success of the first international conference on the medieval chronicle it was decided that another would be in place It was held in the summer of 1999 and again drew some 150 participants There are several reasons why the chronicle is particularly suited as the topic of an international conference In the first place there is its ubiquity all over Europe and throughout the Middle Ages chronicles were written both in Latin and in the vernacular and not only in Europe but also in the countries neighbouring on

it like those of the Arabic world Secondly all chronicles raise such questions as by whom for whom or for what purpose were they written how do they reconstruct the past what determined the choice of verse or prose or what kind of literary influences are discernable in them Finally many chronicles have been beautifully illuminated and the relation between text and image leads to a wholly different set of questions Like its predecessor this volume of conference papers aims to provide a representative survey of the on going research in the field of chronicle studies illustrated by examples from specific chronicles from a wide variety of countries periods and cultural backgrounds They are introduced by the opening address by David Dumville on the question What is a chronicle *The Cambridge Companion to the Writings of Julius Caesar* Luca Grillo, Christopher B. Krebs, 2018 Well known as a brilliant general and politician Caesar also played a fundamental role in the formation of the Latin literary language and history of Latin Literature This volume provides both a clear introduction to Caesar as a man of letters and a fresh re assessment of his literary achievements *Encyclopedia of the Roman Empire* Matthew Bunson, 2014-05-14 Not much has happened in the Roman Empire since 1994 that required the first edition to be updated but Bunson a prolific reference and history author has revised it incorporated new findings and thinking and changed the dating style to C E Common Era and B C E Before Common Era For the 500 years from Julius Caesar and the Gallic Wars in 59 51 B C E to the fall of the empire in the west in 476 C E he discusses personalities terms sites and events There is very little cross referencing *A Study Guide for William Shakespeare's Julius Caesar* Gale, Cengage Learning, 2015-09-15 A Study Guide for William Shakespeare s Julius Caesar excerpted from Gale s acclaimed Shakespeare for Students This concise study guide includes plot summary character analysis author biography study questions historical context suggestions for further reading and much more For any literature project trust Shakespeare for Students for all of your research needs Communicating Ethically William Neher, 2023-10-09 This thoroughly updated fourth edition provides a broad introduction to the major theoretical perspectives on the ethics of communication It brings together classical and modern theories of ethical philosophy to address issues at play in specific careers and domains throughout the field By incorporating a simple framework for ethical reasoning readers are able to develop their own understanding of various criteria for making ethical judgments The book applies ethical theories such as virtue and dialogical ethics to interpersonal organizational political social media and digital communication contexts This edition contains expanded coverage of contemporary and non Western issues and theories This includes the Black Lives Matter and MeToo movements fake news new technologies such as Deepfake videos Confucian ethics and Igbo ethics It also includes a new chapter on the ethics of communicating scientific and medical risks This book serves as a core textbook for undergraduate courses in Communication and Media Ethics and can also be used as a supplemental resource for field specific courses in Strategic Communication Interpersonal Communication and Public Relations Online resources for instructors include sample syllabi sample assignments and a test bank for multiple choice and essay questions They are available at www.routledge.com

Pillars in the History of Biblical Interpretation, Volume 3 Stanley E. Porter, Zachary K.

Dawson, 2021-06-07 This third volume like its predecessors adds to the growing body of literature concerned with the history of biblical interpretation. With eighteen essays on nineteen biblical interpreters, volume 3 expands the scope of scholars both traditional and modern covered in this now multivolume series. Each chapter provides a biographical sketch of its respective scholar, an overview of their major contributions to the field, explanations of their theoretical and methodological approaches to interpretation and evaluations and applications of their methods. By focusing on the contexts in which these scholars lived and worked, these essays show what defining features qualify these scholars as pillars in the history of biblical interpretation. While identifying a scholar as a pillar is somewhat subjective, this volume defines a pillar as one who has made a distinctive contribution by using and exemplifying a clear method that has pushed the discipline forward at least within a given context and time period. This volume is ideal for any class on the history of biblical interpretation and for those who want a greater understanding of how the field of biblical studies has developed and how certain interpreters have played a formative role in that development.

Its modular organization makes it easier for students to find what they need and easier for instructors to assign the content that fits their course.

, *Rhetorical Investigations* Leslie Gardner, 2013-04-12

Rhetorical analysis of texts exposes plausible truths and presumptions implied by the writer's presentation. In this volume, Leslie Gardner analyses the master psychologist Jung, who claimed to be expert at uncovering personal psychological truths. In his theoretical writings, his rhetoric reveals philosophical ramifications which bear strong similarities to those of the rhetorician of the 18th century Italian philosopher Giambattista Vico. This book is driven by an interest in arguing that it is possible to read Jung's works easily enough when you have a set of precepts to go by. The paradox of scientific discovery being set out in Jung's grotesque and arcane imagery begins to seem a startling and legitimate psychology for the 21st

century It is time Jungian studies took on this most appropriate examination of analytical psychology Bringing Vico to bear directly on Jung's thought has only been cursorily attempted before although much alluded to We find indeed that some of Jung's ideas derive directly from rhetorical theory and this volume proposes to highlight Jung's innovations and bring him into forefront of contemporary psychological thought Rhetorical Investigations will be of interest to analysts and academics and also to those studying philosophy and psychology

Josephus Geographicus Yuval Shahar, 2004 Why did ancient historians include geographical descriptions in their historical works How does the spatial description fulfill its goal In this book Yuval Shahar discusses these two questions showing that the answers depend on the particular historian and the genre in which he is writing He analyzes and compares the presentation of geographical space in the writings of Herodotus Thucydides Polybius and Strabo with selected illustrations from early Latin historiography It is clear from this that Flavius Josephus consciously and definitively follows the generic approach of Polybius and Strabo Moreover Josephus' descriptions of parts of the Land of Israel are structured in the same way as the descriptions in Strabo's Geography and reflect a hidden dialogue between Josephus and Strabo Awareness of these generic characteristics enables a new reading of some of Josephus' most famous descriptions such as Jotapata Gamala and Masada and establishes his credibility
