at the different types of military gravestones and the difference between personal graves and the Commonwealth War Graves in Britain There is also large case study on how graves can help with our ancestors sense of place and belonging All of this is complemented with official documents records and extensive use of the national and local newspapers to show how important gravestones can be *The 452nd Anti-Aircraft Artillery Battalion* Samuel de Korte,2025-05-28 The 452nd Antiaircraft Artillery Battalion staffed by Black soldiers protected vital installations and shot down 68 enemy aircraft during WWII During the Second World War the airplane became a true menace Flying faster higher and capable of carrying a heavier payload air forces of the warring nations formed a formidable threat to the forces on the ground To counter this special anti aircraft artillery battalions were created by the US Army Several of these battalions including the 452nd Antiaircraft Artillery AAA Battalion were staffed by Black American soldiers The 452nd AAA deployed in England in November 1943 and went ashore in Normandy France in June 1944 Assigned to XII Corps part of General Patton s Third Army the 452nd AAA was a valuable asset of the US Army Armed with the deadly 40mm Bofors gun and the 50 cal M45 Quadmount these Black soldiers protected bridges field artillery battalions and other vital installations during the Second World War Some of the white soldiers from the field artillery battalions the 452nd AAA was protecting doubted their abilities but quickly came to appreciate the accuracy and coolness under fire of the Black soldiers Credited with shooting down almost 68 hostile aircraft one of the highest among AAA units in Europe the 452nd AAA has rightfully earned its place in the history of the US Armed Forces during the Second World War Although the battalion s motto was We Guard the Skyways it would perhaps be more appropriate to call them Airplane Destroyers Almost 80 years after the war this outstanding unit s history is finally made public **How to Trace Your Irish Ancestors 2nd Edition** Ian Maxwell,2009-06-30 Whether you re

sources are introduced The earliest sources considered in detail are the 1660 poll tax return commonly known as Pender's Census and the hearth tax rolls All known available hearth tax rolls are listed in an appendix The various religious censuses of the eighteenth century are also examined and particular attention is paid to the most well known of these the census of 1766 The use of non census sources such as church and estate record is also considered It is shown that these non census sources can provide much useful information that would not be apparent from census substitutes Problems with working with these sources are outlined and examples of population studies both Irish and non Irish are given Although this book is written with the local historian in mind it will also be of much interest to genealogists and family historians
