Megalith Aylmer von Fleischer, On the plains of Wiltshire in England lie the remains of ancient giant stones Exactly which people built these stones remains the eternal question Just like the pyramids of Egypt its origins remain shrouded in mystery Various theories have been put forward as to the race or otherwise of these builders but still much uncertainty remains The evidence is simply overwhelming that the earliest inhabitants of Britain and Ireland were Blacks Mythological archeological linguistic and other sources have substantiated this remarkable fact Candid authorities like the British Egyptologists Gerald Massey and Albert Churchward the Scottish historian David Mac Ritchie and the British antiquarian Godfrey Higgins have done exhaustive research and brought many facts to our knowledge Tacitus Pliny Claudian and other writers have described the Blacks they encountered in the British Isles as Black as Ethiopians Cum Nigris Gentibus nimble footed blackamoors and so on This book reveals much about the Black presence in the early British Isles including the mysterious builders of Stonehenge We learn about the Black Fomorian Partholonians Nemedian Firbolgs Tuatha De Danann Black Danes Black Douglasses the giants or Cyclopes and so on We also learn about the Black serpent

worshipping Druids who built serpentine monuments like those at Avebury and Carnac as well as the builders of the Round Towers of Ireland The fact remains that Blacks have played a very important role in the early history traditions religion and so on of early Britain and elsewhere than is generally known and acknowledged This is a must read book **The Science of Melanin** T.
