

Student Exploration: Food Chain

Due _____

Prior Knowledge Questions (Do these BEFORE using the Gizmo.)

The *Food Chain Gizmo™* shows a **food chain** with hawks, snakes, rabbits, and grass. In this simulation, the hawks eat snakes, the snakes eat rabbits, and the rabbits eat grass.

1. **Producers** are organisms that do not need to eat other organisms to obtain energy.
 - A. Which organism is a producer in this food chain? [**The grass.**]
 - B. Where does the producer get its energy? [**The sun.**]
2. **Consumers** must eat other organisms for energy. Which organisms are consumers in this food chain? [**The rabbit, snakes, and the hawk.**]

Gizmo Warm-up

The **SIMULATION** pane of the Gizmo shows the current **population**, or number, of each organism in the food chain.

1. What are the current populations of each organism?

Grass: [**27300**] Rabbits: [**2566**] Hawks: [**278**] Snakes: [**42**]

2. Select the **BAR CHART** tab, and click **Play** (▶). What do you notice about each population as time goes by?

[**Some of the species decrease in % of balance.**]

If populations don't change very much over time, the ecosystem is in **equilibrium**.

3. Compare the equilibrium populations of the four organisms. Why do you think populations decrease at higher levels of the food chain? [**Because they depend on the lower parts of the food chain to survive.**]

If you cannot access all the Gizmo site, you **MUST** send them a request for help and get your computer configured so it will work. If they are unable to help you, then you **MUST** use a computer in the library or somewhere else to complete your assignment by the due date!

Answers Key For Student Exploration Food Chain

IM Harris

Answers Key For Student Exploration Food Chain:

Students Taking Charge in Grades K-5 Nancy Sulla,2018-11-01 Discover how to design innovative learning environments that increase student ownership so they can achieve at high levels and meet rigorous standards Students Taking Charge shows you how to create student driven classrooms that empower learners through problem based learning and differentiation where students pose questions and actively seek answers Technology is then used seamlessly throughout the day for information communication collaboration and product generation You ll find out how to Design an Authentic Learning Unit which is at the core of the Learner Active Technology Infused Classroom aimed at engaging students Understand the structures needed to support its implementation and empower students Build the facilitation strategies that will move students from engagement to empowerment to efficacy This new K 5 edition offers a more detailed look into elementary school implementation With the book s practical examples and step by step guidelines you ll be able to start designing your innovative classroom immediately

Nutrition Education Materials Holly Berry Irving,1987 *Super Predator* Dr Cheryl Jakab,2016-01-08 There is something out there deep in the waters off the Southern coast of Australia The search is on in an uncharted area of a huge submarine abyss the Bremer Canyon for a predator that is big enough to eat a 3 metre great white shark

Shellfish Culture, 1979-1986 Deborah T. Hanfman, 1987 **Human Biology: Ecology** H. Craig Heller, 1999 **Botany for B.Sc. Students, Semester V: MJC 8** B P PANDEY, This textbook has been designed to meet the needs of B Sc Fifth Semester students of Botany for Patna University and other Universities in Bihar under the recommended National Education Policy 2020 It comprehensively covers the theoretical and practical aspect of the papers namely MJC 8 Molecular Biology and MJC 9 Plant Ecology and Phytogeography **Students Resolving Conflict** Richard Cohen, 2005 Educational resource for teachers parents and kids **Instructor's Manual for Understanding Nutrition [by] Eleanor Noss Whitney, Sharon Rady Rolfes** Mary Rhiner, 2005 Bridge to Reading Zone Teacher's Resource Guide , 2013-03-01 Perfect for small group instruction geared toward Response to Intervention BTR Zone Bridge to Reading motivates reluctant and struggling readers with high interest nonfiction focused on science adventure biography history and sports With scaffolds such as on page definitions photographs illustrations captions subheads and informational graphics BTR Zone books provide practice with the

text features so important to understanding informational text A teaching plan steeped in Common Core State Standards for Literacy provides instruction for vocabulary fluency comprehension and authentic writing truly providing a bridge for students to become more strategic readers

Pulling Together Leyton Schnellert, Mehjabeen Datto, Krista Ediger, Joanne Panas, 2009 Four dedicated educators pull in the current big ideas in teaching formative assessment backward design inquiry learning strategic teaching metacognition and put them together in a way that makes sense Pulling Together shows how this collaborative process is reflected in all aspects of the literacy learning process from unit planning to the inquiry process to linking assessment to responsive lesson design The book explores working together with students to develop and explore essential ideas and practices including responsive teaching and assessment reading as a personalized and meaningful experience and critical literacy Complete with diagrams graphic organizers classroom examples assessment tools and lists of core understandings this timely guide presents a comprehensive answer to the big questions about teaching English language arts

Project-Based Learning Applied to the Language Classroom Juliana Franco Tavares/ Louise Emma Potter, 2018-03-05 In Project Based Learning Applied to the Language Classroom the authors propose a way to develop PBL in the language classrooms taking into account all of the obstacles and specifics involved in teaching a foreign language It is about teaching English as a second or foreign language using Project Based Learning PBL We approach this combination because many people seem to think about implementing PBL in their language classes and ask questions about how to do it but feel that there aren't enough materials based on this methodology In fact most researchers and writers we have come across discuss the applications of PBL in the students mother tongue to subjects such as Math History Literature Social Studies and Science However there are few published works about the specifics of PBL in foreign language classes Besides it seems obvious to us that the main difficulty in developing projects in a second or foreign language lies exactly on the fact that communication may be hindered when students do not have enough knowledge in the target language
