pragmatic approach The young science of pragmatics has from its inception differentiated itself from neighboring fields in the humanities especially the disciplines dealing with language and those focusing on the social and anthropological aspects of human behavior by focusing on the language user in his or her societal environment This collection of papers continues that emphasis on language use and pragmatic acts in their context The editors and contributors share a perspective that essentially considers language as a system for communication and wants to look at language from a societal perspective and accept the view that acts of interpretation are essentially embedded in culture In an interdisciplinary approach some authors explore connections with social theory in particular sociology or socio linguistics some offer a political stance critical discourse analysis others explore connections with philosophy and philosophy of language and several papers address problems in theoretical pragmatics The Idea of Difficulty in Literature Alan Carroll Purves,1991-01-01 This book redefines the nature of textual difficulty in literature and shows the implications of the new definition for teachers at all levels of education Contrary to the traditional use of grade levels or readability formulae the authors redefine difficulty in terms of readers and the texts they meet They base their arguments on contemporary linguistic theory on historical and comparative studies of criticism on literary theory about readers and texts on post Freudian psychology on empirical research concerning the nature of reading literature and on studies of classrooms curricula and testing What emerges is a coherent work that builds a case for seeing difficulty in literature as a human phenomenon more than a textual one
