 PROJECTION 2013 INTRODUCTION INTRODUCTION The Seabees of the United States Navy were born in the dark days
 following Pearl Harbor when the task of building victory from defeat seemed almost insurmountable The Seabees were
 created in answer to a crucial demand for builders who could fight Using sailors to build shore based facilities however was
 not a new idea Ancient Egyptians Phoenicians Greeks and Romans did it In more recent times from the earliest days ofthe
 United States Navy sailors who were handy with tools occasionally did minor construction chores at land bases After the 7
 December 1941 Japanese attack on Pearl Harbor and the United States entry into the war the use of civilian labor in war
 zones became impractical Under international law civilians were not permitted to resist enemy military attack Resistance
 meant summary execution as guerrillas The need for a militarized Naval Construction Force to build advance bases in the
 war zone was self evident Therefore Rear Admiral Ben Moreell determined to activate organize and man Navy construction
 units On 28 December 1941 he requested specific authority to carry out this decision and on 5 January 1942 he gained
 authority from the Bureau of Navigation to recruit men from the construction trades for assignment to a Naval Construction
 Regiment composed of three Naval Construction Battalions This is the actual beginning of the renowned Seabees who
 obtained their designation from the initial letters of Construction Battalion Admiral Moreell personally furnished them with
