Navigator Dimensions Year 3: Teaching Guide Eileen Jones, 2005-05-09 **Myth Reworks** Sarah Coleman, AI, 2025-05-05

Myth Reworks explores the fascinating intersection of ancient mythology and contemporary fantasy literature. It examines how enduring narratives, symbols, and archetypes from historical religious and belief systems are reconfigured in modern storytelling. The book highlights the idea that these reworkings aren't mere creative borrowing but a reflection of our ongoing need to grapple with fundamental questions about identity and morality. For example, ancient sacred spaces are often reimagined in fantasy settings, carrying symbolic weight that resonates with audiences even today. The book delves into the adaptation of mythological figures, the restructuring of ancient story patterns, and the reimagining of sacred spaces. It dissects how figures like gods and heroes are recast for modern narrative purposes. It also analyzes how traditional plot structures, such as the hero's journey, are deconstructed and reassembled to address contemporary themes. This approach offers valuable insights into the origins of our cultural narratives and the evolving nature of storytelling, showing how ancient myths continue to shape our modern understanding. The book begins by exploring the historical development of mythology, tracing its evolution from ancient religious practices to its role as a source of literary inspiration. Subsequent sections address the adaptation of mythological figures, the manipulation of story patterns, and the reinvention of sacred spaces. The final chapter synthesizes these findings, offering a broader perspective on the cultural significance of myth reworking and its implications for the future of fantasy.

Write Your Own Myth Natalie M. Rosinsky, 2008 An introduction to the craft of myth writing.

'My Mother was the Earth, My Father was the Sky' Nadia Majid, 2010 This study brings together three closely related aspects of Maori literature: myth, memory, and identity. It examines selected novels by Witi Ihimaera and Patricia Grace in order to trace an ever-developing Maori identity that has changed considerably over three decades of the Maori novel. This book demonstrates that an investigation of the construction of identity in literature benefits from a close look at the importance of Maori mythology as well as associated cultural and individual memories. Indicating that Maori fiction has become what Homi Bhabha terms a third space, this book verifies the links between novel, myth, and memory with the help of existing research in these areas in order to assess their importance for the reinterpretation of identity. The Maori novels that depict situations reflecting current issues are viewed as an experimental playground in which authors can explore a variety of solutions to tribal, societal, and political issues. This study establishes the early novels as reinterpretations of the past and guides to the future and characterises the more recent novels as representing a move towards empowerment and pioneering that has not yet come to a conclusion.

Retelling Stories, Framing Culture John Stephens, Robyn McCallum, 2013-01-11 What happens to traditional stories when they are retold in another time and cultural context and for a different audience This first of its kind study discusses Bible stories classical myths heroic legends Arthurian romances Robin Hood lore folk tales oriental tales and other stories derived from European cultures One chapter is devoted to various retellings of classics from Shakespeare to *Wind in the Willows* The authors offer a general theory of what motivates the retelling of stories and how stories express the aspirations of a society An important function of stories is to introduce children to a cultural heritage and to transmit a body of shared allusions and experiences that expresses a society s central values and assumptions However the cultural heritage may be modified through a pervasive tendency of retellings to produce socially conservative outcomes because of ethnocentric androcentric and class based assumptions in the source stories that persist into retellings Therefore some stories such as classical myths are particularly resistant to feminist reinterpretations for example while other types such as folktales are more malleable In examining such possibilities the book evaluates the processes of interpretation apparent in retellings Index included
