In designing a car with the very best in technology, it's easy to get lost in the details. But a successful introduction to your new car is a combination of parts. The challenge is to design the elegant lines of the exterior in a way that also makes sense of the design. When the first thing you notice about a car is how all the lines flow together seamlessly, that's no accident. It's designed to be obvious. The real question is: is the car's design (the car's history) still relevant. The answer is: definitely not. It's clearly not.
