International lawyers have long recognised the importance of interpretation to their academic discipline and professional practice As new insights on interpretation abound in other fields international law and international lawyers have largely remained wedded to a rule based approach focusing almost exclusively on the Vienna Convention on the Law of Treaties Such an approach neglects interpretation as a distinct and broader field of theoretical inquiry *Interpretation in International Law* brings international legal scholars together to engage in sustained reflection on the theme of interpretation The book is creatively structured around the metaphor of the game which captures and illuminates the constituent elements of an act of interpretation The object of the game of interpretation is to persuade the audience that one's interpretation of the law is correct The rules of play are known and complied with by the players even though much is left to their skills and strategies There is also a meta discourse about the game of interpretation playing the game of game playing which involves consideration of the nature of the game its underlying stakes and who gets to decide by what rules one should play Through a series of diverse contributions *Interpretation in International Law* reveals interpretation as an inescapable feature of all areas of international law It will be of interest and utility to all international lawyers whose work touches upon theoretical or practical aspects of interpretation *The Chinese Communist Youth League* Konstantinos Tsimonis, 2025-10-01 The Chinese Communist Youth League is the largest youth political organization in the world with over 80 million members Former Chinese President Hu Jintao was a firm supporter of the League and believed that it could play a bigger role in winning the hearts and minds of Chinese youth by actively engaging with their interests and demands Accordingly he provided the League with a new youth work mandate to increase its capacity for responsiveness under the slogan keep the Party assured and the youth satisfied This original investigation of the hitherto unexamined organization uses a combination of interviews surveys and ethnography to explore how the League implemented Hu's mandate at both local and national levels exposing the contradictory nature of some of its campaigns By doing so it also sheds light on the reasons for Xi Jinping's turn against

the League during his first term in office The Chinese Communist Youth League Juniority and Responsiveness in a Party Youth Organization develops the original concept of juniority to capture the complex ways that generational power is institutionalized alienating young people from official political processes with significant implications for China's political development The book will be of interest to researchers and students of Chinese politics as well as to scholars of comparative youth politics and sociology Official Manual, State of Missouri, 2007

eService-Learning Jean R. Strait, Katherine Nordyke, 2023-07-03 This book serves as an introduction to using online teaching technologies and hybrid forms of teaching for experiential learning and civic engagement Service learning has kept pace neither with the rapid growth in e learning in all its forms nor with the reality that an increasing number of students are learning online without exposure to the benefits of this powerful pedagogy Eservice learning electronic service learning combines service learning and on line learning and enables the delivery of the instruction and or the service to occur partially or fully online Eservice learning allows students anywhere regardless of geography physical constraints work schedule or other access limitations to experience service learning It reciprocally also equips online learning with a powerful tool for engaging students In eservice learning the core components of service learning and reflection may take a different form due to the online medium for example reflection often occurs through discussion board interactions journals wikis or blogs in an eservice learning course Moreover the service though still community based creates a world of opportunities to connect students with communities across the globe as well as at their very own doorstep This book introduces the reader to the four emerging types of eservice learning from Extreme EService Learning XE SL classes where 100% of the instruction and 100% of the service occur online to three distinct forms of hybrid where either the service or the instruction are delivered wholly on line with students for instance providing online products for far away community partners or in which both are delivered on site and online It considers the instructional potential of common mobile technologies phones tablets and mobile reading devices The authors also address potential limitations such as technology challenges difficulties sustaining three way communication among the instructor community partner and students and added workload The book includes research studies on effectiveness as well as examples of practice such drafting grants for a community partner an informational technology class building online communities for an autism group and an online education class providing virtual mentoring to at risk students in New Orleans from across the country *Access to Power* Ijlal Naqvi, 2022 Pakistan's power sector's woes are less mystery than tragedy but to conclude simply that a weak state produces poor governance outcomes misses the manner in which these arrangements are important to reproducing existing relations of domination and are resistant to change The question this book addresses therefore isn't just about why Pakistan doesn't produce enough power
