Mediation Klaus J. Hopt,Felix Steffek,2016-04-29 Mediation provides an attractive alternative to resolving disputes
through court proceedings Mediation promises just results in the interest of all parties concerned a reduction of the court
caseload and cost savings for the parties involved as well as for the treasury The European Directive on Mediation has given
mediation in Europe new momentum by establishing a common framework for cross border mediation Beyond Europe many
states have tried in recent years to answer the question whether and if so how mediation should be regulated at a national
and international level The aim of this book is to promote the understanding and discussion of regulatory issues by
presenting comparative research on mediation It describes and analyses the law and practice of mediation in twenty two
countries Europe is represented by chapters on mediation in Austria Bulgaria England France Germany Greece Hungary
Ireland Italy the Netherlands Norway Poland Portugal and Spain The world beyond Europe is analysed in chapters on
mediation in Australia Canada China Japan New Zealand Russia Switzerland and the USA Against this background further
chapters on fundamental issues identify possible regulatory models and discuss central principles of mediation law and
practice In particular the work considers harmonisation and diversity in the law of mediation as well as the economic and
constitutional problems associated with privatising civil justice To the extent available empirical research is used as a point
of reference in the critical analysis Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office,1979
