questions for journalism educators How is journalism education engaging with these imperatives in the post pandemic context How can student perspectives inform our response What journalism should we teach Against this landscape and in response to these questions this book engages with a series of key themes and objectives related to challenges and new directions in journalism education These include discussions around safeguarding sustainability journalism s democratic deficit integrating media literacy and the post pandemic context Each chapter draws on primary data case studies and examples to describe and unpack the topic and concludes with practical suggestions for journalism educators Challenges and New Directions in Journalism Education is key reading for anyone teaching or training to become a teacher of journalism
