Beginning with the spectacle of hysteria moving through the perversions of fetishism, masochism, and sadism and ending with paranoia and psychosis, this book explores the ways that conflicts with the Oedipal law erupt on the body and in language in Chaucer's *Canterbury Tales*. For Chaucer's tales are rife with issues of mastery and control that emerge as conflicts not only between authority and experience but also between power and knowledge, word and flesh, rule books and reason, man and woman, same and other. Conflicts that erupt in a macabre sprawl of broken bones, dismembered bodies, cut throats, and decapitations. Like the macabre sprawl of conflict in the *Canterbury Tales*, this book brings together a number of conflicting modes of thinking and writing through the surprising and perhaps disconcerting use of shadow chapters that speak to or against the four central chapters, creating both dialogue and interruption. **Cracking the Praxis Tests (Core Academic Skills + Subject Assessments + PLT Exams), 3rd Edition** The Princeton Review, 2018-10-09.
