The Algorithm Design Amro Solima, 2020-02-02 What are the algorithms and why do you have to learn them before you learn any programming language The algorithms are called Algorithms in English The first thing you should know is that the algorithm is not a programming language it is methods of analysis and thinking that we have to follow so you can write the code properly What s the problem with everyone being afraid of programming Most people who try to learn programming you see them they go straight in the wrong direction they start to directly study a particular programming language such as Java C C without being exposed to the principles of basic programming and without that they put the basic ideas of the program then analyzed and performed one after the other
