Proceedings of International Conference on Industrial Instrumentation and Control Subhasis Bhaumik,Subrata Chattopadhyay,Tanushyam Chattopadhyay,Srijan Bhattacharya,2022-02-15 This book is a collection of selected high quality research papers presented at the International Conference on Industrial Instrumentation and Control ICI2C 2021 organized by the Department of Applied Electronics Instrumentation Engineering RCC Institute of Information Technology Kolkata India during 20 August 22 2021 It includes novel and innovative work from experts practitioners scientists and decision makers from academia and industry It covers topics such as instrumentation application in industry instrumentation in electrical applications and instrumentation in recent trends with computation approach Nuclear Power Plants: Innovative Technologies for Instrumentation and Control Systems Yang Xu,Feng Gao,Weihua Chen,Zheming Liu,Pengfei Gu,2017-12-12 This book gathers selected papers from the Second International Symposium on Software Reliability Industrial Safety Cyber Security and Physical Protection of Nuclear Power Plant held in Chengdu China on August 23 25 2017 The symposium provided a platform of technical exchange and experience sharing for a broad range of experts scholars and nuclear power practitioners The book reflects the state of the art and latest trends in nuclear instrumentation and control system

technologies as well as China's growing influence in this area. It offers a valuable resource for both practitioners and academics working in the field of nuclear instrumentation control systems and other safety critical systems as well as nuclear power plant managers, public officials and regulatory authorities.

Advances in Automation, Signal Processing, Instrumentation, and Control Venkata Lakshmi Narayana Komanapalli, N. Sivakumaran, Santosh Kumar

Hampannavar, 2021-03-04 This book presents the select proceedings of the International Conference on Automation Signal Processing Instrumentation and Control i CASIC 2020. The book mainly focuses on emerging technologies in electrical systems IoT based instrumentation advanced industrial automation and advanced image and signal processing. It also includes studies on the analysis design and implementation of instrumentation systems and high accuracy and energy efficient controllers. The contents of this book will be useful for beginners researchers as well as professionals interested in instrumentation and control and other allied fields.

Inventive Systems and Control V. Suma, Joy Iong-Zong Chen, Zubair Baig, Haoxiang Wang, 2021-06-07 This book presents selected papers from the 5th International Conference on Inventive Systems and Control ICISC 2021 held on 7-8 January 2021 at JCT College of Engineering and Technology Coimbatore India. The book includes an analysis of the class of intelligent systems and control techniques that utilises various artificial intelligence technologies where there are no mathematical models and systems available to make them remain controlled. Inspired by various existing intelligent techniques the primary goal is to present the emerging innovative models to tackle the challenges faced by the existing computing and communication technologies. The proceedings of ICISC 2021 aim at presenting the state of the art research developments trends and solutions for the challenges faced by the intelligent systems and control community with the real world applications. The included research articles feature the novel and unpublished research works on intelligent system representation and control.
