The Uniqueness of Chinese Civilization in World History Guy S. Alitto, 2023-04-29 The book is a meticulous work in answering these questions which often occur to foreigners as well as modern Chinese themselves at the thought of the old China and its experience in modern times What is Chinese civilization How could it exist for several millennia and spread that far Is there anything inherent in this civilization From the standpoint of an outsider to this civilization the author incorporates various elements such as geographic factors language thoughts with the recurrent themes along the two thousand years and changes throughout rather than simply following a lineal progression His historiographical approach the methodology of eclectic common sense as he termed it is a new try in this field and will present a brand new perspective for both readers and researchers in that field

The Nation and Its Fragments Partha Chatterjee, 2020-05-05 In this book the prominent theorist Partha Chatterjee looks at the creative and powerful results of the nationalist imagination in Asia and Africa that are posited not on identity but on difference with the nationalism propagated

by the West Arguing that scholars have been mistaken in equating political nationalism with nationalism as such he shows how anticolonialist nationalists produced their own domain of sovereignty within colonial society well before beginning their political battle with the imperial power These nationalists divided their culture into material and spiritual domains and staked an early claim to the spiritual sphere represented by religion caste women and the family and peasants Chatterjee shows how middle class elites first imagined the nation into being in this spiritual dimension and then readied it for political contest all the while normalizing the aspirations of the various marginal groups that typify the spiritual sphere While Chatterjee s specific examples are drawn from Indian sources with a copious use of Bengali language materials the book is a contribution to the general theoretical discussion on nationalism and the modern state Examining the paradoxes involved with creating first a uniquely non Western nation in the spiritual sphere and then a universalist nation state in the material sphere the author finds that the search for a postcolonial modernity is necessarily linked with past struggles against modernity

Historics Martin L. Davies, 2007-05-07 From an author at the forefront of research in this area comes this provocative and seminal work that presents a unique and fresh new look at history and theory Taking a broadly European view the book draws on works of French and German philosophy some of which are unknown to the English speaking world and Martin L Davies spells out what it is like to live in a historicized world where any event is presented as historical as or even before it happens Challenging basic assumptions made by historians Davies focuses on historical ideas and thought about the past instead of examining history as a discipline The value of history in and for contemporary culture is explained not only in terms of cultural and institutional practices but in forms of writing and representation of historical issues too *Historics* stimulates thinking about the behaviours and practice that constitute history and introduces complex ideas in a clear and approachable style This important text is recommended not only for a wide student audience but for the more discerning general reader as well

Empire's Backyard Kailash Baral, 2025-10-03 This book transcends traditional historical analysis to explore the intricate tapestry of colonialism modernity and identity formation in Northeast India Moving beyond a simplistic view of the region as the British Empire's backyard it examines the transformative processes that turned Northeast India beyond Sylhet the empire's eastern outpost into a vibrant frontier While recognizing the importance of exploration and territorial expansion in establishing colonial dominance the narrative emphasizes the crucial roles of resistance and local agency in shaping the region's history The volume critically analyzes the influence of the Church as a powerful force within

the civilizing mission alongside military interventions It dissects the complex relationship between colonialism and modernity revealing how the rhetoric of progress often concealed motives of resource extraction and cultural disruption Through a meticulous unraveling of structures systems and processes the work weaves a compelling narrative of Northeast India not as a passive recipient of colonial ideas its imposition of alien rules and values but as a region actively shaped by the interplay of power resistance and adaptation This book will be of interest to scholars researchers and students of history sociology colonial and postcolonial studies cultural studies and South Asian studies especially those concerned with Northeast India

Nation and the Writing of History in China and Britain, 1880-1930 Asier Hernández Aguirresarobe,2022-08-19 Nation and the Writing of History in China and Britain explores through a comparative approach the reception of the nationalist worldview and its effects on the practice of history in China and Britain This book proposes that nationalism rather than a political doctrine is a way of making sense of the world which results from the combination of a set of definite assumptions The work analyzes how each one of these premises was accepted and negotiated by literati intellectuals historians and other scholars in the late nineteenth and early twentieth centuries The results of this research showcase how the reception of the new nationalist worldview crucially affected images of the past the present and the future in both societies and decisively framed cultural social and political debate In addition they likewise evidence the fundamental role that historical narratives play in the crystallization of national identities This book is perfect for readers interested in China and Britain during this time period but also to anyone attracted to new ways of conceiving nationalism and its role in our world
