Artificial Intelligence in Records and Information Management Mutsagondo, Samson, 2025-04-11. As trending and general technology of the day, artificial intelligence (AI) has permeated every facet of life, such as medicine, commerce, health, as well as media. The records management domain is no exception. Records and information management benefit from AI by being relieved of many tedious processes that are may be easily subjected to manual oversight. Thus, through AI, compliance, security, and efficiency in records management can be greatly enhanced. **Artificial Intelligence in Records and Information Management** outlines and assesses the role and contribution of AI in the records and information management domain. It establishes how records and information management can benefit from the application of artificial intelligence, inclusive of all its sub-technologies. Covering topics such as archival software, data governance, and academic scholarship, this book is an excellent resource for records officers, records managers, information professionals, archivists, documentalists, information and communication technology (ICT) professionals, heritage managers,
