Mythmaking across Boundaries Züleyha

Çetiner-Öktem,2016-04-26 This volume explores the dynamics of myths throughout time and space along with the mythmaking processes in various cultures literatures and languages in a wide range of fields ranging from cultural studies to the history of art The papers brought together here are motivated by two basic questions How are myths made in diverse cultures and literatures And do all different cultures have different myths to be told in their artistic pursuits To examine these questions the book offers a wide array of articles by contributors from various cultures which focus on theory history space place philosophy literature language gender and storytelling Mythmaking across Boundaries not only brings together classical myths but also contemporary constructions and reconstructions through different cultural perspectives by transcending boundaries Using a wide spectrum of perspectives this volume instead of emphasising the different modes of the mythmaking process connects numerous perceptions of mythmaking and investigates diversities among cultures languages and literatures viewing them as a unified whole As the essays reflect on both academic and popular texts the book will be useful to scholars and students as well as the general reader *Mythology for Storytellers* Howard J

Sherman,2014-12-18 Illustrated in full color throughout this delightful collection puts the riches of world mythology at the fingertips of students and storytellers alike It is a treasury of favorite and little known tales from Africa Asia Europe the Americas Australia and Oceania gracefully retold and accompanied by fascinating detailed information on their historic and cultural backgrounds The introduction provides an informative overview of mythology its purpose in world cultures and myth in contemporary society and popular culture Mythic themes are defined and the often misunderstood difference between myth and legend explained Following this the main sections of the book are arranged thematically covering The Creation Death and Rebirth Myths of Origins Myths of the Gods and Myths of Heroes Each section begins by comparing its theme cross culturally explaining similarities and differences in the mythic narratives Myths from diverse cultures are then presented introduced and retold in a highly readable fashion A bibliography follows each retelling so readers can find more information on the culture myth and deities Character geographical and general indexes round out this volume and a master bibliography facilitates research For students storytellers or anyone interested in the wealth of world mythology *Mythology Stories and Themes from Around the World* provides answers to common research questions sources for myths and stories that will delight inform and captivate **Myths on the Margins** William Loader,2022-09-21 Can myths be true Hiding

behind their unreality is often deep meaning waiting to be uncovered This book explores four myths first found on the margins of Israel's faith Over time these myths became major resources for understanding and articulating faith They began as stories of wicked angels kings claiming to be gods and women whom men should fear They then developed to become sources of deep insight They helped open up our understanding of sin and suffering of Christ as servant king and of the Word and Wisdom of God incarnate Like imaginative works of art which can communicate truth in ways that photographs cannot these myths adorn the halls of faith and invite wonder and engagement *The Implied Spider* Wendy Doniger,2011 Wendy

Doniger's foundational study is both modern in its engagement with a diverse range of religions and refreshingly classic in its transhistorical cross cultural approach. By responsibly analyzing patterns and themes across context, Doniger reinvigorates the comparative reading of religion, tapping into a wealth of narrative traditions from the instructive tales of Judaism and Christianity to the moral lessons of the Bhagavad Gita. She extracts political meaning from a variety of texts while respecting the original ideas of each. A new preface confronts the difficulty of contextualizing the comparison of religions as well as controversies over choosing subjects and positioning arguments, and the text itself is expanded and updated throughout.

Conversations with Ursula K. Le Guin Carl Howard Freedman, 2008. Collected interviews with the renowned science fiction and fantasy writer known for *The Left Hand of Darkness*, *The Dispossessed*, *The Lathe of Heaven* and the Earthsea sequence of novels and stories.

Brill's Companion to Prequels, Sequels, and Retellings of Classical Epic Robert C Simms, 2018-07-17. The epics of ancient Greece and Rome are unique in that many went unfinished or if they were finished remained open to further narration that was beyond the power interest or sometimes the life span of the poet. Such incompleteness inaugurated a tradition of continuance and closure in their reception. *Brill's Companion to Prequels, Sequels, and Retellings of Classical Epic* explores this long tradition of continuing epics through sequels, prequels, retellings, and spin offs. This collection of essays brings together several noted scholars working in a variety of fields to trace the persistence of this literary effort from their earliest instantiations in the *Iliad* and *Odyssey* of Homer to the contemporary novels of Ursula K. Le Guin and Margaret Atwood.

Recent Reference Books in Religion William M. Johnston, 2014-01-27. *Recent Reference Books in Religion* provides incisive summaries and evaluations of more than 350 contemporary reference works on religious traditions, ancient and modern, that have been published in English, French, and German. For maximum usefulness to readers, Professor Johnston has broadly defined religion to include not just the world religion of Christianity, Judaism, Islam, Hinduism, and Buddhism but also such alternative approaches as mythology, folklore, and the philosophy of ethics. Each entry, analyzing a particular work, includes full bibliographic details as well as commentary. Outstanding articles and contributors are highlighted; strengths and weaknesses are carefully noted and weighed. Readers are directed to volumes whose strengths and weaknesses are carefully noted and weighed. Readers are directed to volumes whose strengths complement the weaknesses of others. An indispensable guide in any religious studies collection. *Recent Reference Books in Religion*, 2nd Edition, includes works published through the end of 1997. It also includes a Glossary that describes types and functions of reference books and five indexes: Titles, Authors, Topics, Persons, and Places.

Classical Reception and Children's Literature Owen Hodkinson, Helen Lovatt, 2019-07-25. Reception studies have transformed the classics. Many more literary and cultural texts are now regarded as valid for classical study. And within this process of widening children's literature has in its turn emerged as being increasingly important. Books written for children now comprise one of the largest and most prominent bodies of texts to engage with the classical world with an audience that constantly changes as it grows up. This innovative volume

wrestles with that very characteristic of change which is so fundamental to children's literature showing how significant the classics as well as classically inspired fiction and verse have been in tackling the adolescent challenges posed by metamorphosis Chapters address such themes as the use made by C S Lewis in *The Horse and his Boy* of Apuleius' *The Golden Ass* how Ovidian myth frames the Narnia stories classical nonsense in Edward Lear's Pan as a powerful symbol of change in children's literature for instance in *The Wind in the Willows* the transformative power of the Orpheus myth and how works for children have handled the teaching of the classics

Technique, Discourse, and Consciousness David Lovekin, 2022-05-19 This study examines the French thinker Jacques Ellul 1912-1994 and his historical biblical and social analyses of how technology manipulates and impoverishes modern thought culture and language In the spirit of Georg Hegel and Ernst Cassirer Ellul explores how technology begins in myths stories and religion advances to tools and then develops into data algorithms and abstract systems which are detached from human bodies and communities Efficiency then becomes an absolute in all areas of human life and the mentality of technique becomes lost in its creations These modern symbols posing as ultimate human goods and values are denigrated by technique leaving humanity awash in clichés in groundless social media and in blathering slogans that sustain the illusion that politics and culture have now become

Media Anthropology Eric W. Rothenbuhler, Mihai Coman, 2005-05-05 Media Anthropology represents a convergence of issues and interests on anthropological approaches to the study of media The purpose of this reader is to promote the identity of the field of study identify its major concepts methods and bibliography comment on the state of the art and provide examples of current research Based on original articles by leading scholars from several countries and academic disciplines Media Anthropology provides essays introducing the issues reviewing the field forging new conceptual syntheses

Classical Myths and Legends in the Middle Ages and Renaissance H. David Brumble, 1998-02 While numerous classical dictionaries identify the figures and tales of Greek and Roman mythology this reference book explains the allegorical significance attached to the myths by Medieval and Renaissance authors Included are several hundred alphabetically arranged entries for the gods goddesses heroes heroines and places of classical myth and legend Each entry includes a brief account of the myth with reference to the Greek and Latin sources The entry then discusses how Medieval and Renaissance commentators interpreted the myth and how poets dramatists and artists employed the allegory in their art Each entry includes a bibliography and the volume concludes with appendices and an extensive bibliography of primary and secondary sources

The Doppelgänger Dimitris Vardoulakis, 2010 This book presents literature as the double of philosophy This relation is historically rooted in the genesis of the doppelgänger as literature's response to the philosophical focus on subjectivity the term doppelgänger was coined by the German author Jean Paul in 1796 as a critique of idealism's assertion of subjective autonomy individuality and human agency This critique prefigures late twentieth century extrapolations of the subject as decentered From this perspective the doppelgänger has a family resemblance to current conceptualizations of subjectivity It

becomes the emblematic subject of modernity This book examines authors such as Franz Kafka Maurice Blanchot and Alexandros Papadiamantes and philosophers such as Immanuel Kant Walter Benjamin and Jacques Derrida to show how the doppelgänger emerges as a hidden and unexplored element both in conceptions of subjectivity and in philosophy's relation to literature
