Advance Britannia Alan Allport, 2025-11-06 By 1942 Churchill faced a vastly different war than the one he'd inherited from Neville Chamberlain Britain was no longer alone the Soviets were now an unlikely ally in the East and Pearl Harbor had finally pushed America into action Yet the scale of violence remained unchanged On average seven British men women and children were killed every hour of the Second World War The country would never be the same again In Advance Britannia historian Alan Allport reveals the war as it was lived from the

exemplified that rejection using his experiences during the Vietnam War to illustrate the problematic consequences of simple mythic idealism Simultaneously Americans were playing with expanded and revised versions of familiar Frontier Myths though in a contemporary context through NASA's lunar missions Star Trek and Gerard K O'Neill's High Frontier This book examines the reasons behind the exclusion of Frontier Myths to the periphery of scholarly discourse and endeavors to build a new model for understanding their enduring significance This model connects NASA's failed attempts to recycle earlier myths wholesale to Star Trek's revision of those myths and rejection of the idea of a frontier paradise to O'Neill's desire to realize such a paradise in Earth's orbit This new synthesis defies the negative connotations of Frontier Myths during the 1960s and 70s and attempts to resuscitate them for relevance in the modern academic context
