Analysing Company Economist Guide Hardcover:

The Economist Guide to Analysing Companies Bob Vause, 2014-12-01 In today's volatile complex and fast moving business world it can be difficult to gauge how sound a company really is. An apparently strong balance sheet and impressive reported profits may be hiding all sorts of problems that could even spell bankruptcy. So how do you know whether a company is well run and doing well? Decide which ratios and benchmarks to use to assess performance. Work out if a company has massaged its results. Recognise the danger signs on the corporate horizon. Compare companies operating in different sectors or countries. These and many other important questions are answered in a completely updated and revised sixth edition of this clear and comprehensive guide. It is aimed at anyone who wants to understand a company's annual report, judge a customer's creditworthiness, assess a company's investment potential and much more. *Book of Business Quotations* Bill Ridgers, 2012-06-27 A collection of witty and entertaining business quotations brought together by the experts at The Economist. An inspirational, informative and insightful compendium of business wisdom. *Book of Business Quotations* brings together a remarkable collection of business quotations. Going well beyond just the most common widely known remarks from major industry figures, the book unearths little known comments from forgotten experts, novelists and other non-traditional sources, placing them alongside the words of business luminaries to craft a truly comprehensive volume. Compiled partly from talking to businessmen, journalists, writers and professors about quotations they have found, particularly perceptive, and partly by trawling the reference sources, business publications and The Economist itself, the book is structured alphabetically by subject with approximately 50 sections. Brings together words of wit and wisdom about business from a diverse range of sources including CEOs, novelists, business gurus and politicians. Includes remarks on all manner of current business topics from global markets to e-commerce, from business history to consultants. Quotations grouped by subject for easy access.
