Essays and Surveys on Multiple Criteria Decision Making P. Hansen, 2012-12-06 The Fifth International Conference on Multiple Criteria Decision Making not surprisingly had several objectives First it aimed at being a forum for exchange and intensive discussion of recent ideas on theory and practice of MCDM following the now well established tradition of the previous meetings in the series organized by H Thiriez and S Zionts in Jouy en Josas 1975 S Zionts in Buffalo 1977 G Fandel and T Gal in Hagen Konigswinter 1979 and J Morse in Newark 1980 Second closer contacts were desired between participants in these meetings and other active groups in the field prominent among which is the European Working Group on Multiple Criteria Decision Aid Third participation of senior or junior researchers who had recently developed important new methodologies such as the Analytical Hierarchy Process was actively sought for Fourth a synthesis of the rapidly expanding field of MCDM was to be made through selective surveys by leading researchers in the various areas it comprises Fifth cross fertilization and multidisciplinary research was to be encouraged through presentations on the connections between MCDM and mathematics economics game theory computer

science and other subjects Sixth much emphasis was to be given to real world applications of MCDM particularly large scale ones and or pioneering work in new fields The present volume reflects the general agreement observed among participants that these goals were largely attained

Scalable and Efficient Probabilistic Topic Model Inference for Textual Data Måns Magnusson,2018-04-27 Probabilistic topic models have proven to be an extremely versatile class of mixed membership models for discovering the thematic structure of text collections There are many possible applications covering a broad range of areas of study technology natural science social science and the humanities In this thesis a new efficient parallel Markov Chain Monte Carlo inference algorithm is proposed for Bayesian inference in large topic models The proposed methods scale well with the corpus size and can be used for other probabilistic topic models and other natural language processing applications The proposed methods are fast efficient scalable and will converge to the true posterior distribution In addition in this thesis a supervised topic model for high dimensional text classification is also proposed with emphasis on interpretable document prediction using the horseshoe shrinkage prior in supervised topic models Finally we develop a model and inference algorithm that can model agenda and framing of political speeches over time with a priori defined topics We apply the approach to analyze the evolution of immigration discourse in the Swedish parliament by combining theory from political science and communication science with a probabilistic topic model

Navigating Ethics in Behavior Analysis R. Nicolle Carr,2025-11-25 Navigating Ethics in Behavior Analysis considers the elusive topic of ethics in the professional context of behavioral analysis Students often assume their Applied Behavior Analysis Ethics class is going to be an easy A that it takes no more than common sense and a good moral compass to determine the line between right and

wrong But as they quickly learn ethics are different from laws morals and common sense and when a variable is modified from how it was originally learned students can be at a loss for how to critically think through the situation Drawing from her extensive experience in both teaching and practice Nicolle Carr highlights the importance of critical thinking when considering questions of ethics in behavior analysis She examines the history and creation of the Behavior Analysis Certification Board s BACB current ethical code before exploring well known and novel approaches to navigating the ethical decision making process with added emphasis on contextual understanding These approaches are then applied in real world scenarios in schools clinics homes residential facilities higher education and within Organizational Behavior Management Carr concludes by walking the reader through the process of an ethical violation from trying to solve an issue alone and ensuring the person falls under the BACB s jurisdiction to submitting the appropriate documents and what to expect as the process continues Delving into the ethical curiosity created by grey areas that play out daily in the world of behavior analysis this book will be an essential resource for students of behavioral analysis ethics as well as fully certified behavioral analysts
