RATU BANGSAWAN, 2020-04-16 In Indonesia where English is regarded as foreign language the teaching of this subject at most schools are still focused on the mastery of grammar and vocabulary Moreover the teaching and learning process is still using teacher centered approach Although there are four skills listening speaking reading and writing should be covered in the teaching of this subject but the fact some teachers are still reluctant teaching speaking into practice Therefore there is no improvement for both students who learn and teachers who teach and its application in the real world situation What students learn only what is printed on the books and practice it in front of the class The main problem usually comes from both teachers and students that they are non active speaking speakers But this can be solved by using Communicative Language Teaching Since the use of technology such as video television audiotapes the internet computer soft etc can come to aid of such teachers and young students Using Communicative Language Teaching CLT will Help students to use the target language in an authentic and meaningful way USING SCAFFOLDING TECHNIQUE TO IMPROVE VOCABULARY ACHIEVEMENT OF THE FIFTH GRADE PUPILS OF SD NEGERI 1 SEMBAWA BANYUASIN III ISTIQOMAH P. RATU BANGSAWAN, 2020-04-16 This is an experimental study which is aimed to see whether or not there was a significant difference in vocabulary achievement between the pupils who were taught by using scaffolding technique and those who

were taught by using conventional technique For this purpose a non equivalent control group design was used The population was the fifth grade pupils at SD Negeri 1 Sembawa Banyuasin III in the academic year of 2009 2010 The total number of population was 47 pupils The sample involved in this study was all pupils in the population The pupils were grouped into two the experimental group and the control group The experimental group consisted of 24 pupils participated in the 10 week intervention of scaffolding technique while the control group consisted of 23 pupils received typical classroom instruction without intervention of scaffolding technique To collect the data test and questionnaire were used To assess pupils vocabulary knowledge the writer proceeded the pre test at the beginning of the research and followed the posttest at the end of the research The vocabulary achievement was analyzed by examining vocabulary gains that participants made from the pre test to the post test To find out whether there was a statistically significant difference on pupils vocabulary learning achievement before and after the treatment the t analysis was used The result of the study indicated that there was a significant difference between the pupils Who were taught by using scaffolding technique and those who were taught by using common technique It was found that the t obtained value was 4.515 at significant value of 0.05 for two tailed test and degree of freedom 45 t table value was 1.6794 Since the value of t obtained is higher than that of t table the null hypothesis was rejected and the alternative hypothesis was accepted Based on the result of the questionnaire it was found that the total score of positive response was 225 of all 24 pupils This means that 93.75% pupils who participated in 10 week intervention of scaffolding technique had positive response to all of the statements in the questionnaire In other words the pupils agreed that the use of scaffolding technique in vocabulary learning had positive effects on their vocabulary learning

Benefits from the Nonprofit Sector? Charles T. Clotfelter, 1992-10-15 Over a million nonprofit organizations from day care centers and neighborhood churches to major research universities and metropolitan hospitals are currently relied upon to deliver an array of essential social services. This is in keeping with a historical conviction that private voluntary action as opposed to government intervention should address as many of the nation's social needs as possible. But just how much to rely on the nonprofit sector is the question at the center of a growing debate. Critics challenge the assumption that nonprofit organizations have successfully directed much of their benefits toward the poor and disadvantaged, an assumption that has to date justified favorable tax treatment for donations and nonprofit operations. **Who Benefits from the Nonprofit Sector** examines all the major elements of the nonprofit sector: health services, educational and research institutions, religious organizations, social services, arts and cultural organizations, and foundations, describing each institution and its function and then exploring how their benefits are distributed across various economic classes. The book's findings indicate that while few institutions serve primarily the poor, there is no evidence of a gross distribution of benefits upwards toward the more affluent. The source of an institution's funding is also shown to be an important determinant in how its benefits are distributed. They show, for example, that nonprofit nursing homes and drug treatment centers have a lower concentration of Medicaid patients than their for-profit public counterparts do. Twenty-seven percent of social service agencies serve primarily the poor, and the large majority of these received most of their income from the federal government. The effective educational subsidy, i.e., cost of education less tuition per person at both public and private universities, increases with income. The analysis of this data makes for a book with profound implications for future social and tax policy. **Entrepreneurial President** Patricia A. Pelfrey, 2012-03-06 This is a book about the University of California's seventeenth president, Richard C. Atkinson, and the ideas, issues, and political storms that shaped the University and his eight-year presidency, 1995-2003, the transition to the post-affirmative action age, the full emergence of the entrepreneurial university, and the battle over the University's 60-year role in managing the nation's nuclear weapons laboratories.
