Building Strong Brands David A. Aaker, 2011-11-08 As industries turn increasingly hostile it is clear that strong brand building skills are needed to survive and prosper In David Aaker s pathbreaking book *Managing Brand Equity* managers discovered the value of a brand as a strategic asset and a company s primary source of competitive advantage Now in this compelling new work Aaker uses real brand building cases from Saturn General Electric Kodak Healthy Choice McDonald s and others to demonstrate how strong brands have been created and managed A common pitfall of brand strategists is to focus on brand attributes Aaker shows how to break out of the box by considering emotional and self expressive benefits and

by introducing the brand as person brand as organization and brand as symbol perspectives The twin concepts of brand identity the brand image that brand strategists aspire to create or maintain and brand position that part of the brand identity that is to be actively communicated play a key role in managing the out of the box brand A second pitfall is to ignore the fact that individual brands are part of a larger system consisting of many intertwined and overlapping brands and subbrands Aaker shows how to manage the brand system to achieve clarity and synergy to adapt to a changing environment and to leverage brand assets into new markets and products Aaker also addresses practical management issues introducing a set of brand equity measures termed the brand equity ten to help those who measure and track brand equity across products and markets He presents and analyzes brand nurturing organizational forms that are responsive to the challenges of coordinated brands across markets products roles and contexts Potentially destructive organizational pressures to change a brand's identity and position are also discussed As executives in a wide range of industries seek to prevent their products and services from becoming commodities they are recommitting themselves to brands as a foundation of business strategy This new work will be essential reading for the battle ready

introduction of a new CDM is highly significant This book gathers data about leading edge consumers analyzes these data then proposes a new type of CDM called circulation marketing Following this model not only the previous types of CDM but also the new kind of CDM including share behavior of leading edge consumers is explained Creating Value Laura R. Oswald, 2015 In global consumer culture brands structure an economy of symbolic exchange that gives value to the meanings consumers attach to the brand name logo and product category Brand meaning is not just a value added to the financial value of goods but has material impact on financial markets themselves Strong brands leverage consumer investments in the cultural myths social networks and ineffable experiences they associate with marketing signs and rituals Creating Value The Theory and Practice of Marketing Semiotic Research is a guide to managing these investments by managing the cultural codes that define value in a market or consumer segment The book extends the discussion beyond the basics of semiotics to post structural debates related to ethnographic performance multicultural consumer identity the digitalized consumer and heterotopic experiences of consumer space The book invites readers to challenge the current thinking on topics ranging from cultural branding and brand rhetoric to digital media management and service site design It also emphasizes the role of product category codes and cultural trends in the production of perceived value Creating Value explains theory in language that is accessible to academics and students as well as research practitioners and marketers By applying semiotics to the everyday world of the marketplace the book makes sense of the semiotics discipline which is often mystified by technical jargon and hair splitting debate in the academic literature The book also provides practitioners and professors with a practical guide to the methods used in semiotic research across the marketing mix
