Proceedings of MAC-ETL 2016 group of authors, 2016-12-07 The conference proceedings Multidisciplinary Academic Conference on Education Teaching and Learning Czech Republic Prague MAC ETL 2016 **Transatlantic Economic Challenges in an Era of Growing Multipolarity** Jacob F. Kirkegaard, Nicolas Véron, Guntram Wolff, 2012 Shifts in global economic dominance are by nature tectonic and never precipitated by single events The Great Recession of 2008 09 however

has presented the European Union its common currency the euro and the United States with new global challenges The transatlantic partnership has dominated the world economy since the early 20th century and based upon US and European values and interests has designed and sustained all its principal global political and economic institutions But countries outside the European Union and United States now account for about half of the world economy and in the aftermath of the Great Recession their share is growing rapidly Hence their increasing role and concomitant demands for greater influence over global economic governance pose a series of challenges and opportunities to the European Union and the United States as illustrated by the eclipse of the G 8 by the G 20 The contributions in this volume by subject area experts from the Peterson Institute for International Economics and Bruegel ponder how or whether the rise of outside actors of potentially equal or even greater economic weight will invariably force a rethinking of not only how the European Union and the United States should conduct policy externally towards the new rising economic poles but also of the substantive contents of the EU US bilateral economic and political relationship

Tailings Dam Management for the Twenty-First Century Franco Oboni, Cesar Oboni, 2019-07-13 This book presents a comprehensive approach to address the need to improve the design of tailings dams their management and the regulation of tailings management facilities to reduce and eventually eliminate the risk of such facilities failing The scope of the challenge is well documented in the report by the United Nations Environment Program UNEP and GRID Arendal entitled Mine Tailings Storage Safety Is No Accident which was released in October 2017 The report recommends that Regulators industry and communities should adopt a shared zero failure objective to tailings storage facilities and identifies several areas where further improvements are required In this context the application of cutting edge risk assessment methodologies and risk management practices can contribute to a significant reduction and eventual elimination of dam failures through Risk Informed Decision Making As such the book focuses on identifying and describing the risk assessment approaches and risk management practices that need to be implemented in order to develop a way forward to achieve socially acceptable levels of tailings dam risk
