United States Code 2012 Edition Supplement IV, *Supporting the Military-Affiliated Learner*, Victoria McDermott, Leandra Hinojosa Hernández, Amy R. May, 2020-12-10

Supporting the Military-Affiliated Learner: Communication Approaches to Military Pedagogy and Education challenges the academic community to 1) reevaluate how they support military-affiliated learners (MALs) and address how the military-civilian academic divide causes disparities and barriers to MAL academic achievement and retention, and 2) implement programs and develop strategies to facilitate equitable academic integration from application to graduation. With contributions from veterans, military spouses, and communication educators, this book explicates barriers that MALs face when trying to transition to navigate and succeed in higher education. This edited volume explores the impact of the diversity and nuances of MAL identities on their experiences in higher education, promotes military competence by providing opportunities for educators and support staff to learn about potential barriers and promote best practices for connecting with MALs, and validating their lived experiences. It examines how technology, computer-mediated communication, may be used to facilitate community building and promote connectedness for MALs within face-to-face and digital spheres.
