Higher Education ,2023-11-02 COVID wrought havoc on the world s economic systems Higher education did not escape the ravages brought on by the pandemic as institutions of higher education around the world faced major upheavals in their educational delivery systems Some institutions were prepared for the required transition to online learning Most were not Whether prepared or not educators rose to the challenge The innovativeness of educators met the challenges as digital learning replaced the face to face environment In fact some of the distance models proved so engaging that many students no longer desire a return to the face to face model As with all transitions some things were lost while others were gained This book examines practice in the field as institutions struggled to face the worst global pandemic in the last century The book is organized into four sections on Perils and Promises The State of Online Education Goals and Challenges of Online Learning and Innovations in the Age of COVID It presents various perspectives from educators around the world to illustrate the struggles and triumphs of those facing new challenges and implementing new ideas to empower the educational process These discussions shed light on the impact of the pandemic and the future of higher education post COVID Higher education has been forever changed and higher education as it once was may never return While many questions arise the achievements in meeting and overcoming the pandemic illustrate the creativity and innovativeness of educators around the world who inspired future generations of learners to reach new heights of accomplishment even in the face of the pandemic

The Dynamics of Changing Higher Education in the Global South Busani Mpofu,Sabelo Ndlovu-Gatsheni,2020-06-29 Today there are generally universities in Africa rather than African universities The legitimacy of the university in Africa is under serious questions now because of its complicity in racism patriarchy sexism colonialism capitalism genocide epistemicide linguicide culturecide and alienation In other words the university in Africa as we know it today is elitist and exclusionary Therefore rethinking the idea of the university is fundamental to overcoming its current deficiencies in the Global South This volume bringing together a number of national case studies and macro analyses on the dynamics of changing higher education in the Global South gestures towards the desired imagined decolonial African university which should be a site of multilingualism where African indigenous languages cosmologies and ontologies become a central part of its identity and soul intolerant of epistemicides linguicides and cultural imperialism but a site of cognitive and social justice that fully embraces the idea that all human beings are born into valid useful relevant and legitimate knowledge systems

The Palgrave Handbook of Language and Crisis Communication in Sub-Saharan Africa Ernest Jakaza,Hugh Mangeya,Isaac Mhute,2024-06-17 This handbook provides a detailed and sustained examination of the scope purpose and practical application of crisis and disaster management communication in this critical region of the African continent sub Saharan Africa SSA The volume lays the foundation that enables a nuanced appreciation of two significant issues The first pertains to SSA s vulnerability to both natural and man made phenomena Secondly it argues that communication plays a

critical role in so far as the identification social construction raising awareness preparation mitigation and eradication of crises and disasters in the region Communication plays a critical role in potentially reducing the impacts of crises and disasters before their occurrence This handbook is a key resource for academics students and practitioners in areas such as political communication media communication language and communication brand communication social digital media communication and crisis communication among others Leading and Managing Open and Distance e-Learning (ODEL) Institutions in Africa Cuthbert Majoni,2022-10-18 Leading and Managing Open and Distance E Learning ODeL Institutions in Africa focuses on e learning especially in developing countries in Africa The outbreak of COVID 19 has forced most educational institutions including conventional institutions in higher education to embrace e learning as a tool to ensure that education is not paralysed but continues to thrive However the major challenge has been shifting focus from the conventional face to face mode to the e learning mode This calls for a change of mindset and a review of practices to ensure success in implementing e learning This book has 12 chapters that explore the leadership theories and approaches that influence administrative practices in ODeL institutions as well as student support within library and information services the complexities of student affairs the inclusion of students with special needs the contemporary issues of innovation and industrialisation and effective marketing techniques for the survival and growth of tertiary institutions It is hoped that the recipients of this book can acquire the theoretical and practical knowledge relevant to the successful implementation of e learning **Fall Enrollment in Higher Education** National Center for Educational Statistics,1973 Innovation and Resource Management Strategies for Startups Development Baporikar, Neeta,2024-02-26 In business success hinges not only on individual performance but on the vitality of the broader ecosystem in which a company operates However crafting a thriving ecosystem alone is not enough to ensure success Equally vital is the ability to manage relationships within this ecosystem effectively harnessing its potential to enhance overall performance Moreover startups face the daunting challenge of scalability a pivotal factor in long term sustainability Yet achieving scalability often proves elusive due to complexities in resource management and ecosystem development Innovation and Resource Management Strategies for Startups Development is a comprehensive solution to the pressing issues of resource management ecosystem development and startup scalability This unique reference book delves deep into these critical aspects offering a wealth of ideas case studies and best practices alongside thorough theoretical analysis We recognize the undeniable influence of resource management and ecosystems on startup scalability and our objective is to enhance understanding in this domain By examining the powerful concepts that have shaped development policy and dissecting the role of resource management and ecosystem development in current discourse our book provides the necessary insights to identify inefficiencies and facilitate startup scalability It goes beyond mere theory fostering collaborative strategies among resources ecosystems and startups on a global scale ultimately contributing to social and economic development *Handbook of Research on Global Institutional Roles for Inclusive*

Development Baporikar, Neeta, 2022-06-24 With the history of multilateral governance and the impact of the global pandemic there is no doubt that we are at a transition between the system that marked the decades after the Second World War and a more extensive system of international governance that will characterize the world for the next generation That system may keep the long standing promise to serve the world's least advantaged or it may serve to marginalize them further For more than a century and a half the most powerful national governments have created institutions of multilateral governance that promise to make a more inclusive world a world serving women working people the colonized the backward the destitute and the despised That promise and the real impact need deliberation and discussion The Handbook of Research on Global Institutional Roles for Inclusive Development examines the concepts that have powerfully influenced development policy and more broadly examines the role of ideas in these institutions and how they have affected the current development discourse It enhances the understanding of how these ideas travel within systems and how they are translated into policy modified distorted or resisted Covering topics such as ethical consumption academic migration and sustainable global capitalism this book is an essential resource for government officials activists management academicians researchers students and educators of higher education and educational administration and faculty *Harold-Barry: A Mission Divided*, 2023-04-05

ELEVEN JESUITS SET OUT FOR THE INTERIOR OF SOUTHERN AFRICA BY OX WAGON IN APRIL 1879 ON A MISSION TO PREACH THE CHRISTIAN GOSPEL TO THE PEOPLE BEYOND THE LIMPOPO RIVER WITHIN A YEAR AND A HALF THREE OF THEM WERE DEAD They shared the same ignorance of Africa as their European contemporaries concerning disease geography culture religion and the political rivalries of the people among whom they came They also shared a narrow frame of reference towards the continent and the failure of imagination that went with it Further as people of their time they saw and were seen by other denominations as rivals and far from co-operating the churches indulged in an unseemly competition And yet these men were in their own way heroic and faced the difficulties eagerly even joyfully Their failures and disappointments far outweighed the little progress they appear to have made but they laid the foundations for what was to follow after 1890 when the colony of Southern Rhodesia was established This event inaugurated a ninety year period when relations between church and state waxed and waned The missionaries welcomed the order even if it could not be called peace and the infrastructure the colonisers introduced The speed of travel for instance went from about 15 km a day by ox wagon to 30 km an hour by train But the Church and the Jesuits were for long the drivers of what we mean by Church never managed to decide on a coherent policy vis a vis the white government until it was too late They were divided the majority of Jesuits worked with blacks but there was a sizeable number who worked exclusively with whites So while we can document the enormous and fruitful work that was done over the decades after 1890 we have to acknowledge the failure to give a united witness in confronting the nakedly racist policies of the state If we had been able to do this in the 1920s and 30s we might have contributed to the evolution of a more harmonious society and avoided the terrible bloodshed of subsequent years

Journalism and Ethics: Breakthroughs in Research and Practice Management Association, Information Resources, 2019-05-03 In the modern hyperconnected society consumers are able to access news from a variety of channels including social media television mobile devices the internet and more From sensationalist headlines designed to attract click throughs to accusations of bias assigned to specific news sources it is more important now than ever that the media industry maintains best practices and adheres to ethical reporting By properly informing citizens of critical national concerns the media can help to transform society and promote active participation Journalism and Ethics Breakthroughs in Research and Practice examines the impacts of journalism on society and the media s responsibility to accurately inform citizens of government and non government activities in an ethical manner It also provides emerging research on multimedia journalism across various platforms and formats using digital technologies Highlighting a range of pertinent topics such as investigative journalism freedom of expression and media regulation this publication is an ideal reference source for media professionals public relations officers reporters news writers scholars academicians researchers and upper level students interested in journalism and journalistic ethics **Trade Policy Review**, 2020 Biochar for Environmental Remediation Willis Gwenzi, 2025-01-31 Biochar for Environmental Remediation Principles Applications and Prospects synthesizes state of the art knowledge on biochar based systems for environmental remediation This book examines a wide variety of biochar applications for the remediation of inorganic organic microbial and emerging contaminants in various environmental media including drinking water industrial wastewater urban stormwater industrial and indoor air pollution and contaminated lands and soils An increasing body of evidence shows that biochars have potential applications in environmental remediation of contaminants in soils aqueous systems and air pollution control This book uses a systematic approach covering biochar preparation properties and characteristics removal mechanisms industrial applications regeneration and disposal of spent biochar life cycle analysis and environmental and human health risks Researchers engineers and graduate students will find this to be a valuable reference for understanding opportunities for the use of biochar in environmental remediation as it fills the gaps in existing literature and offers a clear roadmap to guide future research Addresses the whole biochar cycle from preparation principles of application industrial application domains regeneration recycling and final disposal life cycle analysis and environmental and human health risks Covers a broad range of inorganic organic microbial and emerging contaminants providing a one stop source of biochar information Presents applications of biochar in the remediation of diverse environmental media including drinking water industrial wastewater urban stormwater acid mine drainage contaminated lands and soils and industrial and indoor air pollution control William Blake as Natural Philosopher, 1788-1795 Joseph Fletcher, 2021-12-07 William Blake as Natural Philosopher 1788 1795 takes seriously William Blake s wish to be read as a natural philosopher particularly in his early works and illuminates the way that poetry and visual art were for Blake an imaginative way of philosophizing Blake s poetry and designs reveal a consistent preoccupation with eighteenth

century natural philosophical debates concerning the properties of the physical world the nature of the soul and God's relationship to the material universe This book traces the history of these debates and examines images and ideas in Blake's illuminated books that mark the development of the monist pantheism in his early works which contend that every material thing is in its essence God to the idealism of his later period which casts the natural world as degenerate and illusory The book argues that Blake's philosophical thought was not as monolithic as has been previously characterized and that his deepening engagement with late eighteenth century vitalist life sciences including studies of the asexual propagation of the marine polyp marks his metaphysical turn In contrast to the vast body of scholarship that emphasizes Blake's early religious and political positions William Blake as Natural Philosopher draws out the metaphysics underlying his commitments In so doing the book demonstrates that pantheism is important because it entails an ethics that respects the interconnected divinity of all material objects not just humans which in turn spurns hierarchical power structures If everything is alive and essentially divine Blake's early work implies then everything is worthy of respect and capable of giving and receiving infinite delight Therefore one should imaginatively and joyfully immerse oneself in the community of other beings in which one is already enmeshed Often in the works discussed in this book Blake offers negative examples to suggest his moral philosophy he dramatizes the disastrous individual and social consequences of humans behaving as if God were a transcendent immaterial nonhuman demiurge and as if they were separate from and ontologically superior to the degraded material universe that they see as composed of inert lifeless atoms William Blake as Natural Philosopher traces the evolution of eighteenth century debates over the vitalist qualities of life and the nature of the soul both in the United Kingdom and on the continent devoting significant attention to the natural philosophy of Newton Locke Berkeley Leibniz Buffon La Mettrie Hume Joseph Priestley Erasmus Darwin and many others
