After Dictatorship Peter Hoeres, Hubertus Knabe, 2023-02-20 Numerous studies concerning transitional justice exist However comparatively speaking the effects actually achieved by measures for coming to terms with dictatorships have seldom been investigated There is an even greater lack of transnational analyses This volume contributes to closing this gap in research To this end it analyses processes of coming to terms with the past in seven countries with different experiences of violence and dictatorship Experts have drawn up detailed studies on transitional justice in Albania Argentina Ethiopia Chile Rwanda South Africa and Uruguay Their analyses constitute the empirical material for a comparative study of the impact of measures introduced within the context of transitional justice It becomes clear that there is no sure formula for dealing with dictatorships Successes and deficits alike can be observed in relation to the individual instruments of transitional justice from criminal prosecution to victim compensation Nevertheless the South American states perform much better than those on the African continent This depends less on the instruments used than on political and social factors Consequently strategies of transitional justice should focus more closely on these contextual factors ECDG 2018 18th European Conference on Digital Government Ramon Bouzas-Lorenzo, Andres Cernadas Ramos, 2018-10-25 The European Conference on e Government has been running now for 18 years This event has been held in Italy Ireland Belgium UK Slovenia to mention a few of the countries who have hosted it This year we are refocusing the conference to look more broadly at the area of Digital Government The conference is generally attended by participants from more than 40 countries and attracts an interesting combination of academic scholars public sector workers and individuals who are engaged in various aspects of Digital Government research and application *Science and Engineering of Materials II* Chin Che Tin, Mohd Rafie Johan, 2016-07-11 Materials and Technology for a Sustainable Future Selected peer reviewed papers from the 2nd International Conference on Science and Engineering of Materials 2015 ICoSEM2015 November 16-18 2015 Kuala Lumpur
