The Dai and the Indigenous Asha Achuthan,2024-11-15 This is a book about the dai or traditional birth practitioner and her place in the emerging therapeutic domain in colonial and contemporary India The book employs a caste informed feminist reading of the colonial archive against the grain and explores papers by Englishwomen physicians texts of indigenous medicine and practitioner accounts administrative documents public commentaries and legislative assembly debates from the 19th and early 20th centuries It also examines contemporary healthcare policy discourse Using these methodologies the author traces the production of the dai as an unsanitary unskilled indigenous figure in colonial and nationalist accounts The book goes on to examine the workings of gender and caste in the setting up of this figure at first for containment and then for removal from institutionalized healthcare an exercise that is more or less completed in the present The author argues that this exercise is part of the refashioning of the indigenous and of indigenous medicine throughout this period into a highly codified domain that centres caste privilege and is supported by global capital networks In such a refashioning the dai figure is rendered remote not only from the centre of the healthcare apparatus but also from the centre of the contemporary nation This genealogical tracing of indigenous medicine in Indian contexts rather than separate histories is also useful to understand better what is termed the healthcare assemblage today and this book provides a ground on which this can be done

The Promise of Adolescence National Academies of Sciences, Engineering, and Medicine,Health and Medicine Division,Division of Behavioral and Social Sciences and Education,Board on Children, Youth, and Families,Committee on the Neurobiological

and Socio-behavioral Science of Adolescent Development and Its Applications,2019-08-26 Adolescence beginning with the onset of puberty and ending in the mid 20s is a critical period of development during which key areas of the brain mature and develop These changes in brain structure function and connectivity mark adolescence as a period of opportunity to discover new vistas to form relationships with peers and adults and to explore one s developing identity It is also a period of resilience that can ameliorate childhood setbacks and set the stage for a thriving trajectory over the life course Because adolescents comprise nearly one fourth of the entire U S population the nation needs policies and practices that will better leverage these developmental opportunities to harness the promise of adolescence rather than focusing myopically on containing its risks This report examines the neurobiological and socio behavioral science of adolescent development and outlines how this knowledge can be applied both to promote adolescent well being resilience and development and to rectify structural barriers and inequalities in opportunity enabling all adolescents to flourish

Genealogical Fictions Jobst Welge,2015-02-16 Moving through time he uncovers often unsuspected novelistic continuities and international transformations and echoes from Maria Edgeworth s Castle Rackrent published in 1800 to G Tomasi di Lampedusa s 1958 book Il Gattopardo By revealing the family resemblance of novels from Great Britain Italy Spain Portugal and Brazil this volume shows how genealogical narratives take on special significance in contexts of cultural periphery Welge links private and public histories while simultaneously integrating detailed accounts of various literary fields across the globe In combining theories of the novel recent discussions of cultural geography and new approaches to genealogical narratives Genealogical Fictions addresses a significant part of European and Latin American literary history in which texts from different national cultures illuminate each other in unsuspected ways and

reveal the repetition as well as the variation among them

A History Of The B-17 Flying Fortress in Over 400 Photographs, Stories And Analysis: Including The U.S. Army Air Forces in World War II: Combat Chronology 1941 - 1945 - American Air Power in WWII, 2015-08-01

PREFACE The chronology is concerned primarily with operations of the US Army Air Forces and its combat units between December 7 1941 and September 15 1945 It is designed as a companion reference to the seven volume history of The Army Air Forces in World War II edited by Wesley Frank Craven and James Lea Cate The research was a cooperative endeavor carried out in the United States Air Force historical archives by the Research Branch of the Albert F Simpson Historical Research Center Such an effort has demanded certain changes in established historical methodology as well as some arbitrary rules for presentation of the results After International and US events entries are arranged geographically They begin with events at Army Air Forces Headquarters in Washington then proceed eastward around the world using the location of the headquarters of the numbered air forces as the basis for placement For this reason entries concerning the Ninth Air Force while operating in the Middle East follow Twelfth Air Force When that headquarters moves to England in October 1943 the entries are shifted to follow Eighth Air Force The entries end with those numbered air forces which remained in the Zone of the Interior as well as units originally activated in the ZI then designated for later movement overseas such as Ninth and Tenth Air Forces The ZI entries do not include Eighth and Twentieth Air Forces which were established in the ZI with the original intent of placing them in those geographical locations with which they became historically identified For these two units original actions are shown either under AAF or in their intended geographic area of location All times and dates used are those of the area under discussion The entry 1 2 Jun indicates that an event occurred during the night between the two given dates while 1 2 Jun indicates an action over a period of time In dealing with people again arbitrary decisions were implemented For military men below the general officer or equivalent level full grade and name were used For general officers and those of equal grade in other US and foreign services the complete rank both that at the time first mentioned and the highest rank held prior to the end of the war and name will be found in the index Only an abbreviated rank e g Gen or Adm and last name are used in the text The exception is where two general officers had the same last name in such cases the first name is also included Similarly for civilian leaders only the last name is used full name and title are given in the index Location of all towns islands etc is also made in the index In all cases attempts were made to cite place names in use by the native population at the time of or immediately before the war No names imposed by a conqueror are used For example Pylos Bay not Navarino Bay is used Further as appropriate native geographic terms are used Shima for island in Japanese island groups See for lake in Germany However two exceptions were made In cases in which the place became infamous because of the actions of the conquering power that name is preferred for example Auschwitz would be used rather than the Polish name of Oswiecim Also in larger international cities such as Roma Koln and Wien the anglicized name is used Where a village or hamlet was difficult to locate or where

there were several such places with the same name in a general area the coordinates are given in the index In some cases with no extant navigational aids of the attacking force the best possible guess was made based upon all available evidence In other instances such as the bridge at Hay ti attacked so often by Tenth Air Force a logical guess could not be made In these cases a question mark is placed in brackets after the index entry Accent marks such as umlauts were omitted
