Understanding the Molecular Mechanisms of Plant Responses to Abiotic Stress Sang Yeol Lee, Dae-Jin Yun, Jose M. Pardo, Motoaki Seki, Yan Guo, Abel Rosado, 2020-02-20 Plant responses to environmental stress are governed by complex molecular and biochemical signal transduction processes which act in coordination to determine tolerance or sensitivity at the whole plant level Upon exposure to abiotic stress plants express a sophisticated coordinated response to reprogram interconnected defense networks and metabolic pathways by alterations in the transcription translation and post translational modification of defense related genes and proteins Traditionally physiological and phenotypic responses were the major ones to be collected in plant stress biology However modern studies include the identification of key genes that influence stress tolerance and plant growth under the imposing stress and the verification of gene functions using knock out mutants or overexpression lines In addition genomics has become a necessary tool for the understanding of plant stress responses at the whole genome levels The identification of stress tolerant plant resources and the investigation of the functional role of the genetic variants is also a valuable tool in this research field Recently the advent of CRISPR Cas genome editing technology enables these variations to be introduced in crops for improved stress tolerance traits Through the understanding of the molecular mechanisms involved in plant signaling in response to abiotic stress and crop performance characters under stress conditions we hope to open new ways for the breeding of superior crops

A Luta Continua Lizette Rabe, 2020-10-16 What has media freedom entailed over the couple of centuries and successive

governments of the geopolitical region that became South Africa since it was colonised by Westerners And why can media freedom be described as both pillar and cornerstone of a democracy It s simple as in the words of Nelson Mandela first state president of a democratic South Africa Press freedom is the lifeblood of democracy This book tells the tale of the various states of press freedom or unfreedom from colonial times to today from a British governor called a dictator and a despot through apartheid s pigmentocracy or sjambokkracy where the rule of law has been replaced by the rule of the whip up to the dawn of liberation with media freedom entrenched in Article 16 of South Africa s Bill of Rights And why should all of this concern you Because media freedom is not about the freedom of the media It is about your freedom As was formulated by an editor under apartheid If we don t have a public sympathetic to a free press not only will we not have a free press we won t have a democracy either Or in the words of former Sowetan editor and SANEF chair Mpumelelo Mkhabela Media freedom has nothing to do with the media but with the freedom of citizens And that is why you should know that a free media is the only guarantee for your freedom As we have seen both under apartheid and also under a democratic dispensation it is a matter of a luta continua The struggle continues But you the public are the guardian of those that guard democracy Help ensure the rights of a free media and thereby your democratic rights and a democratic South Africa
