Fake News and Information Disorder in the Era of Advance Information Technology Adeyinka Tella,Oluwole O Durodolu,2025-09-01 Information pollution on a worldwide scale is a new phenomenon brought on by the advancement of modern advanced social information technology The long term effects of disinformation efforts are the most concerning because they are difficult to evaluate in terms of their direct and indirect effects Information disorder also known as misinformation disinformation and malinformation is currently wreaking havoc in our society It is defined as the spreading or development of inaccurate information with or without the aim to harm Due to the extensive harm it has already done on all of these levels politically economically culturally socially spiritually and even psychologically immediate action is required to stop the situation As a result the book Fake News and Information Disorder in the Era of Advance Information Technology is an effort to thoroughly examine information disorder its related challenges the role that libraries and other information organizations can play and to outline approaches to addressing information pollution

Hans Heyerdahl Hallen Kathi Holt,Errol Haarhoff,Walter Peters,2025-10-16 Tracing the life of architect Hans Heyerdahl Hallen 1930 2022 this book reveals the transnational influences that shaped his practice in South Africa and the migratory circles of ideas that defined a new form of subtropical architecture Beginning with Hallen s Nordic and South African roots chapters then explore his practice and studies at the London County Council and Architectural Association where he met with contemporaries such as Jane Drew and Maxwell Fry From here he returned to South Africa with new ideas that challenged the teachings of early modernism instead combining philosophies such as Norberg Schulz s genius loci with African traditional architecture Zulu Kraal to create buildings unique to local communities and topographical conditions This need to embrace vernacular forms was a response to local climate conditions and local materials but also a desire to make cities relevant to the African context

In transmuting European teachings within colonial environments Hallen's practice reveals the role of the architect to reflect local communities and to build for their needs and to create spaces for community and resistance. Published as part of the Bloomsbury Studies in Modern Architecture series which brings to light the work of significant yet overlooked modernist architects, the study features a wealth of previously unpublished archival material to explore the role of the architect in the colonial context.

How Social Movements Imagine Bobby Luthra Sinha, 2024-08-30 This book examines how micro contextual issues inspire collective social action forms against everyday situations of crises and crimes through an interdisciplinary ethnographic and comparative research conducted among Bishnois and Indian South Africans. Exploring the role of the publics that practise and mobilise their social movement imaginations, the work delves into peoples ability to move beyond their immediate contexts and politicise multiple social spaces and discursive spheres around them to project their causes. Mapping an anti poaching movement spearheaded by the Bishnois of Western Rajasthan in India and an anti substance abuse movement led by the historical Indian diaspora of South Africa, the author argues that such contemporary forms of organised social action replete with alternative frames, symbols and repertoires possess key requisites to be understood as the Newer Social Movements of the Global South. The volume will be of great interest to scholars and researchers of social and protest movements, migration and diaspora studies, political science, social anthropology and ethnography.
