edition **Essential Enrolled Nursing Skills for Person-Centred Care WorkBook - eBook ePub** Gabby Koutoukidis, Kate Stainton, 2020-10-01 Nursing informatics competency skill aligned to the National Nursing and Midwifery Digital Capability Framework 2020 Health Professions in Nigeria Joseph Abiodun Balogun, 2021-10-18 This book provides a unique assessment of the Nigerian healthcare system's different professions. It begins by examining the fundamentals of health professions to contextualize the issues explored in the book in more detail. It goes on to present the hierarchy of occupations, professionalization, and the evolutionary path and socialization milestones that occupations attempting to attain true professions status and power transcend. It also analyses the differences between professional autonomy, direct access, and independent practice. The latter parts identify Nigeria's primary healthcare professions and vocational careers and discuss their central roles, each discipline's specialty, including the biography of 35 notable pioneer Nigerian healthcare professionals during the 19th and early 20th centuries. The book concludes by analyzing the causes and adverse impacts of interprofessional conflict and industrial action within the Nigerian healthcare system and proposes the interdisciplinary team concept as a panacea for both conundrums.

Introduction to Maternity and Pediatric Nursing - E-Book Gloria Leifer, 2022-08-31 Build the knowledge and clinical judgment you need to succeed in maternity and pediatric nursing. Written in a clear, easy-to-read style, *Introduction to Maternity and Pediatric Nursing* 9th Edition describes how you can provide effective evidence-based care for women during pregnancy, labor, and delivery, and for newborns and growing children. The text spans the continuum of child development, organizing topics from simple to complex and from health to illness. This approach makes it easy to locate information. Another hallmark of the book is its strong focus on family-centered care, health promotion, and illness prevention. Written by noted nursing educator Gloria Leifer, this bestselling text includes new Next Generation NCLEX exam-style case studies, plus updates on infection control, pandemic responses, and more. Unfolding case studies follow one family through the conception and birth process and include open-ended critical thinking questions applying the content to practice. More than 25 nursing care plans include nursing diagnoses, plus goals, nursing interventions, and rationales, along with critical thinking questions to promote clinical decision-making skills. Detailed nursing skills cover a wide range of maternal and pediatric nursing interventions. Safety alerts highlight the importance of protecting patients and others from accidents, medication errors, and the spread of disease. Nursing tips include practical evidence-based information applicable in the clinical setting. Nursing guidelines reflect the World Health Organization's Baby-Friendly Hospital Initiative, alternative therapies, immunization mandates, emergency preparedness, preventing medication errors, and more. Get Ready for the NCLEX Examination: at the end of each chapter, includes a summary of key points, additional online resources, review questions, and critical thinking questions. Cultural Considerations boxes help you address the needs of culturally diverse patients and families. Patient Teaching boxes help you communicate instructions for self-care with patients and families. Medication tables provide quick access to information about commonly used medications.
