Polish Foreign Trade ,1993 New Forms of Work Organization in Europe Peter Grootings,Björn Gustavsen,Lajos Hächthy, A remarkable development in the sociology of work in recent years has been the explosion of brilliant cross national and cross cultural studies in Europe examining the conditions of labor against the background of different economic systems and differences within each of the major free market mixed welfare and planned economic systems that dot the European landscape In Vienna and Budapest in particular a group of intellectual workers have gotten together for what can only be described as breakthrough studies in the conditions and purposes of work in post industrial society The question of new forms of work organization focuses on job satisfaction participatory democracy in the work place levels of productivity and issues of health and safety in the occupational environment That these elements are important have long been known But what this collection of studies emphasizes is the specific mix that produced specific outcomes It does not shy away from dangerous and tough questions worker control and control of workers political participation in contexts of authoritarian regimes and personal rewards in contexts that once frowned upon private acquisition of capital The volume is rich in empirical studies and draws the theoretical implications that can and already have had vast policy consequences for workers in the modern context Issues relating to job rotation enrichment enlargement and autonomy and others related to new forms of organization starting with the shop floor and extending throughout the management of the enterprise as a whole are dealt with candidly The social character of labor long frowned upon as a mechanism for evading bread and butter issues is now recognized East and West as a dimension of concern that is growing precisely as the size and character of the labor sector is diminishing This is must reading for those interested in new forms of social and policy synthesis and ways of meliorating competing claims of different sectors in modern societies **The Origin and Growth of Geography as a discipline at South Africa Universities** Gustav Visser,2016-09-20 The publication provides the first comprehensive text that reflects on a century of the development of geography as an academic discipline at South African universities The book showcases a broad and textured review of South Africa s geography departments their staff members their times and the different Geographies they engaged in The book lays the foundation from which more expansive individual departmental histories can be written in the future Ntsikelelo's Dream Catcher Ntsikelelo Goodman Ndesi,2020-01-01 This is an inspirational true story extolling the power of a dream The perception of the world with its endless possibilities Regardless of the circumstances and the challenges honest living accomplishes the truest most well deserved victory Identification of self worth is key to a peaceful approach to life and perseverance and the practise of patience can prove to be very rewarding Time rewards tons in the presence of the future Contributions to Library Science ,1990 **Records Maintained by Government Agencies** United States. Congress. House. Government Operations Committee,1972 *Technological Innovation, Modernity, and Electric Goods in Late State Socialist Poland* Patryk Wasiak,2023-12-15 Technological Innovation Modernity and Electric

Goods in Late State Socialist Poland deconstructs the public performance of technological innovation and imagined modernity in relation to the home technologies market in late state socialist Poland While doing so Patryk Wasiak sheds light on the politics that accompanied the modes of representations of the new innovative consumer technologies in the public sphere and the agenda of actors who performed such representations This book argues that the central form of the mediation of home technologies was the projection of specific sociotechnical imaginaries that included visions of how these technologies would have an impact on the creation of a desirable future social order and economy Later such imaginaries were re negotiated and challenged as infeasible or undesirable The author demonstrates how expert groups the industry lobby research institutes and non governmental organizations attempted to secure their role as intermediary actors in order to have a tangible impact on not only the production of commodities but more importantly on the definition of which commodity or a product feature is modern and innovative and which is obsolete

Doctors in a Divided Society Mignonne Breier, Angelique Wildschut, 2006 Many of the goals of South Africa's new democracy depend on the production of professionals who have not only the knowledge and skills to make our country globally competitive but also a commitment to working and living here Despite numerous reforms the South African health system ten years into democracy remains divided first world private care that ranks with middle income countries internationally at the one end and at the other extreme in the rural public sector in particular conditions that are superior only to the poorest of African countries Much work has been done to change medical school curricula in line with the primary health care focus of government policy and international trends towards problem based learning The student profile in medical schools is now not only more representative of the demographics of South Africa but also reveals a significant increase in female students Whether these students will stay in the country after graduating and serve where they are needed most remains to be seen Publisher's website
